

tesa® 70430

Product Information

300µm double sided white Bond & Detach tape

Product Description

tesa® 70430 is a double-sided mounting tape which can be removed by stretching the adhesive in the bond plane (stripping).

Product Features

- Thickness: 300μm
- · Very high bonding strength
- · Superior push out and shock resistance
- · Easy removability even after long bonding time by stretching the adhesive

Application Fields

- · Temporary fixation of components in electronic devices during the production process
- · Permanent mounting of components in electronic devices with the option to remove the parts for repairing or recycling
