

# tesa® 4129

## Product Information

### Single-Sided Tape

### Product Description

tesa® 4129 is a transparent tape with a PET backing. Its acrylic adhesive system combines good initial tack with high shear strength. The product is resistant to humidity and most chemicals.

Colour: Transparent

### Product Features

- The thin high-temperature tape conforms well around irregular shapes and its acrylic adhesive system combines good initial tack with high shear strength and provides a high short-term temperature resistance of 200°C.
- tesa® 4129 is resistant to humidity and most chemicals.
- High resistance to humidity and chemicals
- High short-term temperature resistance (200°C)
- Thin tape design for good conformability

### Application Fields

tesa® 4129 is particularly suitable for

- Splicing of filmic materials
- Edge protection and reinforcement
- Splicing of photographic negatives
- Litho mounting

### Technical Information (average values)

The values in this section should be considered representative or typical only and should not be used for specification purposes.

### Product Construction

- |                    |          |                   |             |
|--------------------|----------|-------------------|-------------|
| • Backing          | PET film | • Total thickness | 50 µm       |
| • Type of adhesive | acrylic  | • Color           | transparent |

### Properties/Performance Values

- |                       |       |
|-----------------------|-------|
| • Elongation at break | 140 % |
|-----------------------|-------|

### Adhesion to Values

- |         |          |
|---------|----------|
| • Steel | 2.3 N/cm |
|---------|----------|

### Additional Information

- Temperature resistance (short term): 200°C

## Product Information

### Additional Information

- Dielectric Strength: 90,4 kV/mm
- Surface resistivity 4,45E+14  $\Omega$
- Volume resistivity 7,36E+15  $\Omega$ cm
- Dielectric strength according to DIN EN 60243-1
- Surface / Volume resistivity according to DIN IEC 60093
