

tesa® 4302

Product Information

High performance paper masking tape up to 160 °C / 320 °F

Product Description

tesa® 4302 is a smooth paper masking tape fulfilling the requirements of high demanding automotive paint jobs (water- or solvent based paints) with subsequent oven-drying up to 160°C / 320°F

The natural rubber adhesive provides high tack and adhesion to a variety of surfaces like paint, metal, glass, rubber and plastic. The smooth-to-touch paper backing has an excellent conformability and enables good cornering. Paint and filler systems adhere excellent to the reverse side avoiding any kind of flaking. Even after cooling down to room temperature it can be removed without any residues or tearing.

Sustainable Aspects

70% bio-based content in total product excluding liner (by weight)

Product Information

Technical Information (average values)

The values in this section should be considered representative or typical only and should not be used for specification purposes.

Product Construction

• Backing	slightly-creped paper	• Total sustainable product excl. liners by weight (acc. EN 16785)	70 %
• Type of adhesive	natural rubber	• Total thickness	170 µm 6.7 mils

Properties/Performance Values

• Elongation at break	10 %	• Easy to remove	yes
• Tensile strength	46 N/cm 26.3 lbs/in	• Hand tearability	very good

Adhesion to Values

• Steel	4 N/cm 36.5 oz/in
