

tesa[®] 6090

Product Information

Dispenser manual de banco doble rollo

Descripción del producto

El dispensador tesa[®] 6090 es universalmente aplicable para dos rollos de cinta tesa[®] de 66 m, hasta 25 mm de ancho. Por esta razón, puede utilizarse con diferentes cintas tesa[®] al mismo tiempo (por ejemplo, cintas de película o cintas de embalaje de diferentes anchos y colores, o con varias huellas). Una ventaja adicional es la hoja lisa que da un corte recto y limpio. Por esta razón, el dispensador se utiliza frecuentemente para cintas litográficas.

Características

- An advantage is the smooth blade which gives a straight, clean cut. For this reason the dispenser is frequently used for lithographic tapes.

Aplicación

Because of its sturdy construction and its non-slip base, an additional fastener is not required. The chosen tape is pulled off and cut along the blade.

Propiedades / Valores de rendimiento

- | | | | |
|-----------------------------|--------|----------------------|----------|
| • Core diameter | 3 | • Modo de operación | manual |
| • Diámetro máximo del rollo | 125 mm | • Roll width max | 25 mm |
| • Gramaje | 2500 g | • Tipo de aplicación | embalaje |
