

Product Information

100µm double sided black high performance filmic tape

Product Description

tesa® 61765 is a double sided self-adhesive tape consisting of a black PET backing and a tackified acrylic adhesive. Black colour

Product Features

- Thickness: 100µm
- High bonding strength
- High push out resistance
- Superior shock resistance
- Excellent resistance to demanding environmental conditions

Application Fields

- Lens mounting in mobile phones
- Touch panel mounting

Technical Information (average values)

The values in this section should be considered representative or typical only and should not be used for specification purposes.
