

tesa® Justerbar limspiker for tapet og gips 2 kg

Product Information

BNR 77777

Produktbeskrivelse

Høydejusterbar limspiker for opptil 2 kg. Ideell for opphenging og retting av bilder på strukturerte og sensitive overflater som tapet eller gips.

Funksjoner

- For teksturerte og sensitive overflater som tapet eller gips
- For gjenstander opptil 2 kg* per spiker eller 4 kg ved hjelp av 2 spikrer
- Kan justeres i høyden for oppretting* Kan fjernes uten å etterlate merker
- Gjenbrukbar med en ny strimmel
- For optimale resultater kan du lese instruksjonsheftet

Applikasjon

How to apply – Step by step1. Get the most out of each Adhesive Strip by cleaning your surface of dirt and dust with a dust-free cloth.

2. Apply the Adhesive Strip to the rougher surface, so in the case of wallpaper or plaster, always apply it to the wall, with the blue tab facing the wall. Before using, make sure that your surface is strong enough to take the weight of the object you want to attach.

3. Press down evenly over the entire strip for at least 5 seconds and only then remove the protective foil. Pressing down like this means the flexible polymer chains are activated to form U-shaped links with the surface. It's these links that give such a secure and reliable bond, so the harder and more evenly you press, the better the bond.

4. Now apply the tesa® Adjustable Adhesive Nail by aligning it on the top edge of the strip, then folding it down. Press down evenly all over the entire nail for at least 5 seconds.

5. The tab should be left accessible behind your object or below the nail for easy removal.

6. Push the red toggle up to unlock the nail head, adjust it to the desired position, then lock the head in place by pushing the red toggle back down until it clicks into place.
