

Contributing to
sustainability – Our
packaging tape assortment

For a more sustainable future

We help your business to be more sustainable

Outstanding quality for crucial applications

Whether for a light or heavy carton, traveling a short distance by rail, or taking a long journey by ship – our range of packaging tapes meets all the requirements of modern logistics. They facilitate a fast packaging process, protect the shipment, and reinforce the carton closure. But that is not all: as one of the market leaders for packaging tapes, we are well aware of the big contribution that we can make to the environment when developing new products. And this is reflected in our new range of packaging tapes with sustainable aspects.

tesa – Your packaging tape partner

Secure packaging is the primary requirement to ensure a product reaches its destination intact. It provides protection from a variety of factors en route to the recipient. However, it is not only the cardboard box that is of significance – a huge range of other requirements are also placed on the adhesive tapes holding the box together.

tesa® packaging tapes are the result of decades of experience in the secure sealing of cartons. They have proven their worth millions of times over as a safe solution, under a huge range of different conditions, for the transportation of goods.

Why tapes will be vital in the future

The debate around packaging pollution has grown significantly in recent years. Increasing concern from regulatory bodies and from the public are currently leading to major changes – in both industrial and consumer packaging. Packaging tapes are also being discussed as a crucial part of the packaging solution, with calls for innovative solutions that better protect our environment growing louder.

of packaging tapes that will support our customers in meeting their sustainability goals.

The following pages provide a detailed overview of the current assortment of packaging tapes with sustainable aspects and will help you find the right tape for your specific requirement.

We are not only focusing on becoming a more sustainable company but want to support our customers to become more sustainable as well. To do so, we have developed a set

Sustainability Agenda

A compass for positive change

As a company, we are embedded in society and the environment.

There is no healthy economy without a healthy society and no healthy society without a healthy environment. We therefore take responsibility for our actions along our entire value chain and consider the entire product life cycle to reduce our footprint.

Based on this understanding, we have derived our Sustainability Agenda, which reflects our holistic view. It creates clarity and steers our efforts and investments in the most meaningful directions.

Our five strategic action areas with high impact

To meet our commitments, we have defined a set of goals and indicators aligned with our Sustainability Agenda. This also applies to packaging tapes.

- 01**

Reduction of emissions
- 02**

Responsible sourcing
- 03**

Use of recycled and bio-based materials
- 04**

Circularity and reduction of waste
- 05**

Enable sustainability at our customers and consumers

Paper packaging tapes – Our safe bets

tesa® 4713

Standard paper packaging tape

- Ideal for the sealing of cardboard boxes up to 10 kg
- Good adhesion on different cardboard qualities
- Can be torn by hand
- Suitable for manual and automatic dispensers
- Printable with all types of ink systems

Our offer

- Paper backing made with paper from well-managed FSC™-certified forests and other controlled sources
- Recycling-friendly according to INGEDE Method 12 (100/100)
- Solvent-free production process

tesa® 4513

Superior paper packaging tape

- Ideal for the sealing of cardboard boxes up to 15 kg
- Very strong adhesion and high initial tack
- Good resistance to shock impacts
- Can be torn by hand
- Suitable for manual and automatic applications
- Printable with all types of ink systems

Our offer

- Paper backing made with paper from well-managed FSC™-certified forests and other controlled sources
- Recycling-friendly according to INGEDE Method 12 (100/100)
- Solvent-free production process

tesa® 4313 PV10 and PV12

Premium paper packaging tape

- Ideal for the sealing of cardboard boxes up to 20 kg
- Very strong adhesion and high initial tack
- Highly resistant to shock impacts
- Can be torn by hand
- Suitable for manual and automatic dispensers
- Printable with all types of ink systems

Our offer

- Paper backing made with paper from well-managed FSC™-certified forests and other controlled sources
- Recycling-friendly according to INGEDE Method 12 (83/100)
- Solvent-free production process

Usage of bio-based content in backing

Manual and automatic application

Good hand tearability

Good printability for customization

Paper packaging tapes - Our master tapes

tesa® 60408

Bio-based paper packaging tape

- Ideal for the sealing of cardboard boxes up to 20 kg
- Good adhesion and high initial tack
- Highly resistant to shock impacts
- Can be torn by hand
- Suitable for manual and automatic applications
- Printable with all types of ink systems

Our offer

- 92% bio-based carbon content in total product
- Paper backing made with paper from well-managed FSC™-certified forests and other controlled sources
- Official certification from DIN CERTCO
- Recycling-friendly according to INGEDE Method 12 (78/100)
- Solvent-free production process

tesa® 60013

Self-adhesive reinforced paper tape

- Suitable for heavy-duty packaging applications (up to 25 kg)
- Excellent adhesion and aggressive tack
- High tensile strength
- Paper backing reinforced with fiberglass scrim
- Tamper-evident seal when removing the tape
- Suitable for manual and automatic dispensers

Our offer

- Recycling-friendly according to INGEDE Method 12 (75/100)
- Solvent-free production process

Filmic packaging tapes

tesa® 60400

Bio & Strong

- Ideal for the sealing of cardboard boxes up to 30 kg
- Strong adhesion
- Robust backing material
- Solvent-free production process
- Very good performance on recycled cardboards

Our offer

- 98% bio-based carbon content in total product
- Official certification from DIN CERTCO and TÜV AUSTRIA
- Solvent-free production process

tesa® 60412

Recycled PET packaging tape

- Ideal for the sealing of cardboard boxes up to 30 kg
- 70% Post-Consumer Recycled (PCR) PET content in backing
- Strong and very consistent acrylic adhesive
- Low-noise unwind
- Very good performance on recycled cardboards
- Printable with all types of ink systems

Our offer

- 70% PCR PET content in backing
- Recycling-friendly according to INGEDE Method 12 (100/100)
