*For optimal results please read instruction leaflet

Product Properties

• Type of tape	Double-sided adhesive	• Solvent free	yes
• Transparent	no	• Suitable surfaces	Wallpaper, Plaster
• UV-resistant	no	• Reusable	yes
• Water resistant	no	• Waterproof	no
• Humidity resistant	no	• Reusable with	sms-refill-strip-wallpaper-1kg
• Oil- and grease-resistant	no	• Batteries required	no
• Ozone resistant	no	• Batteries included	no
• Resistance to chemicals	No		

Technical Data

• Application temperature	min. 15° C	• Temperature resistance	5 °C
• Area of use	Indoor	• Temperature resistance	35 °C
• Material	PS (polystyrol)	• up to	
• Residue-free removable	yes	• Silicone free	yes
• Type of adhesive	synthetic rubber	• Hazard material	no

Application

- How to apply – Step by step
1. Ensure the best possible bond by cleaning the surface of dirt and dust with a dust-free cloth.
 2. First, apply the Adhesive Strip to the rougher surface, so in the case of wallpaper or plaster always first apply it to the wall, with the blue tab facing the wall. Before using, make sure that your surface is strong enough to take the weight of the object you want to attach.
 3. Press down evenly over the entire strip for at least 5 seconds and only then remove the protective foil. By pressing down like this the flexible polymer chains are activated and form U-shaped links with the surface. It's these links that give such a secure and reliable bond, so the harder and more evenly you press, the better the bond.
 4. Now apply the tesa[®] Adhesive Nail by aligning it on the top edge of the strip, then folding it down. Press down evenly all over the entire nail for at least 5 seconds.
 5. The tab should be left accessible behind your object or beneath the nail for easy removal.
