

tesa® PRO is more personalized than ever

Now you can use your own
product numbers on tesa® PRO

New!

With the latest update of tesa® PRO, you can enter your usual product numbers in the quick order function on the dashboard as well as in the product search.

The only thing it needs is to add them to tesa® PRO first. Simply **go to the “My Product Numbers” section in your user profile.** Here you can also find the product numbers you have already linked to a tesa product number and delete those links that are no longer current.

tesa® **PRO** UPGRADES
MY BUSINESS

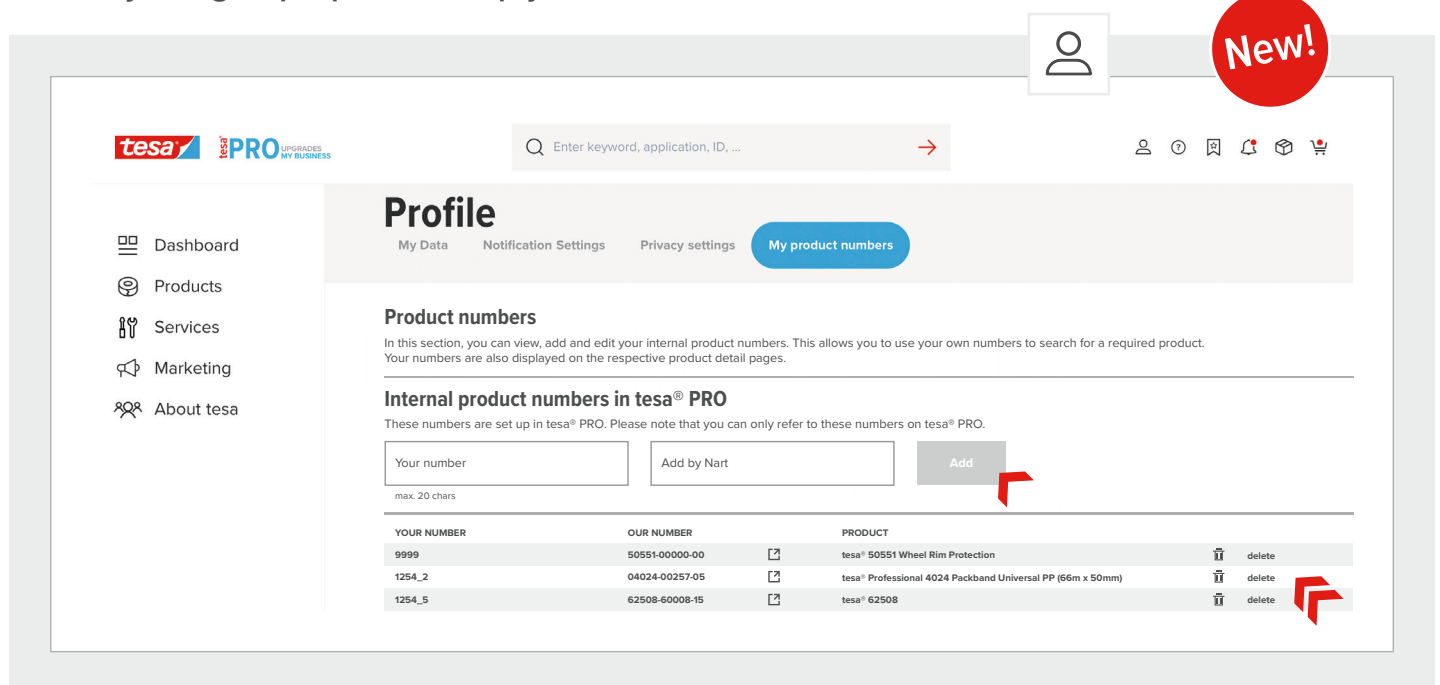

pro.tesa.com

Your numbers, simplified search!

Use your own product numbers on tesa® PRO

From now on, you can link the tesa® product numbers with the ones that you are used to in your company. With this latest update of tesa® PRO, you can enter your own product numbers in the quick order function on the dashboard as well as in the product search. In both cases, tesa® PRO will identify the desired tesa® product.

The only thing to prepare: Set up your numbers on tesa® PRO

tesa PRO UPGRADES MY BUSINESS

Product numbers

In this section, you can view, add and edit your internal product numbers. This allows you to use your own numbers to search for a required product. Your numbers are also displayed on the respective product detail pages.

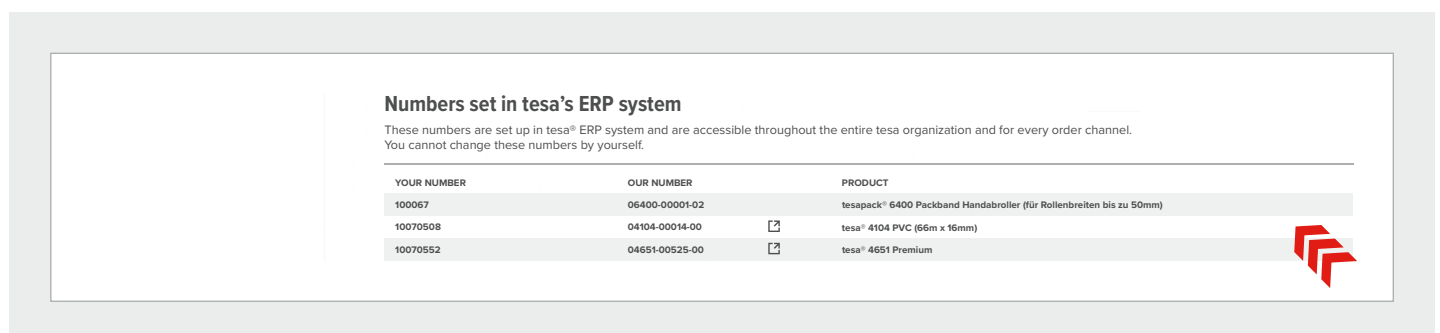

Internal product numbers in tesa® PRO

These numbers are set up in tesa® PRO. Please note that you can only refer to these numbers on tesa® PRO.

Your number (max. 20 chars) Add by Nart Add

YOUR NUMBER	OUR NUMBER		PRODUCT		
9999	50551-00000-00	<input checked="" type="checkbox"/>	tesa® 50551 Wheel Rim Protection		delete
1254_2	04024-00257-05	<input checked="" type="checkbox"/>	tesa® Professional 4024 Packband Universal PP (66m x 50mm)		delete
1254_5	62508-60008-15	<input checked="" type="checkbox"/>	tesa® 62508		delete

Simply **go to your user profile** and select the “My Product Numbers” section. Here you can insert your own product number, then add the corresponding tesa® product number (14 digits) and finally click on the “Add” (➤) button. This way, you can enter many of your product numbers within just a few minutes. And once you have linked the product numbers in tesa® PRO you have also the possibility to delete the links (🗑).

Numbers set in tesa's ERP system

These numbers are set up in tesa® ERP system and are accessible throughout the entire tesa organization and for every order channel. You cannot change these numbers by yourself.

YOUR NUMBER	OUR NUMBER		PRODUCT		
100067	06400-00001-02		tesapack® 6400 Packband Handabroller (für Rollenbreiten bis zu 50mm)		
10070508	04104-00014-00	<input checked="" type="checkbox"/>	tesa® 4104 PVC (66m x 16mm)		
10070552	04651-00525-00	<input checked="" type="checkbox"/>	tesa® 4651 Premium		

In the “My Product Numbers” section, you will also find a list of all your product numbers, provided they have already been set up in tesa's ERP system by a tesa employee in the past. Please note that these product numbers cannot be changed or deleted using the “Delete” option (🗑) in tesa® PRO.
