

tesa® 52332

Product Information

300 µm plate mounting tape, permanent bond

Product Description

tesa® 52332 is a double-sided tape of 300 µm (12 mil) thickness with a PVC backing and an acrylic adhesive. It is designed for demanding plate mounting applications, especially where high adhesion is required and plates are mounted permanently. This is for example the case in corrugated board postprint where plates are commonly mounted to carrier films and hung vertically when stored.

Product Features

- The structured PP liner prevents the formation of air pockets during plate mounting.

Application Fields

Plate mounting for various applications, especially for permanent bonds
