

# tesa® 54242

## Product Information

## Butterfly Shaped Die-Cut

### Product Description

tesa® 54242 is a single sided notched rectangular die-cut consisting of a paper backing and a modified synthetic rubber adhesive.

### Product Features

- Very good adhesion values on unpolar surfaces
- Very high shear strength
- Low thickness

### Application Fields

tesa® 54242 is suitable to fix the top layer of a film reel during the flying splice process in the film producing, printing and converting industry. It provides a secure fixation of the web during acceleration of the reels and reliable breaking on contact due to a perforation at the breaking zone. The perforation is printed black for easy positioning.
