

# tesa® 4441

## Product Information

## Technical Information (average values)

The values in this section should be considered representative or typical only and should not be used for specification purposes.

### Product Construction

|                    |                              |                     |        |
|--------------------|------------------------------|---------------------|--------|
| • Backing material | slightly-creped paper        | • Total thickness   | 140 µm |
| • Type of adhesive | repulpable tackified acrylic | • Thickness of tape | 140 µm |
| • Type of liner    | none                         |                     |        |

### Properties/Performance Values

|                           |         |                                |         |
|---------------------------|---------|--------------------------------|---------|
| • Elongation at break     | 11 %    | • Tack                         | good    |
| • Tensile strength        | 75 N/cm | • Tensile strength (crosswise) | 36 N/cm |
| • Static shear resistance | good    |                                |         |
