

77762

Product Features

- For smooth and solid surfaces like tiles indoors
- For objects up to 2kg per nail or 4kg using 2 nails
- Removable without a trace
- Reusable with a new strip

Application Fields

How to apply – Step by step1. To ensure the closest, strongest possible bond, clean the surface with a silicone-freewindow cleaner or methylated spirit. The surface should be completely dry before application.

2. The Adhesive Strip should be applied first to the rougher surface.

3. Press down evenly over the entire strip for at least 5 seconds and then remove the protective foil. Be careful not to touch the exposed adhesive area at any time.

4. Now apply your tesa® Adhesive Nail by aligning it with the top edge of the strip and then folding it down. Press down evenly over the entire nail for at least 5 seconds.

5. The tab should be left accessible behind your object or beneath the nail for easy removal.

Technical Information (average values)

The values in this section should be considered representative or typical only and should not be used for specification purposes.

Product Construction

- | | | | |
|--------------------|------------------|--------------------------------|------|
| • Type of adhesive | synthetic rubber | • Holding power of strip up to | 2 Kg |
|--------------------|------------------|--------------------------------|------|

Properties/Performance Values

- | | | | |
|--------------------------------|------------------|------------------------|-----|
| • Application temperature from | -15 °C | • Ozone resistance | no |
| • Chemical resistance | no | • Residue free removal | yes |
| • Hazard material | no | • Reusable | yes |
| • Humidity resistance | no | • UV resistant | no |
| • Material | PS (polystyrene) | • Waterproof | no |
| • Oil and grease resistance | no | | |
