

# tesa® Powerstrips

## Product Information

77720, 77722, 77721, 77723

## Technical Information (average values)

The values in this section should be considered representative or typical only and should not be used for specification purposes.

## Product Construction

- Total thickness 4000 µm

## Properties/Performance Values

- |                                |                              |                          |     |
|--------------------------------|------------------------------|--------------------------|-----|
| • Application temperature from | 15 °C                        | • Residue free removal   | yes |
| • Applicationfield             | Office, Living room,<br>Hall | • Solvent free           | yes |
| • Chemical resistance          | no                           | • Temperature resistance | no  |
| • Hazard material              | no                           | • UV resistant           | no  |
| • Humidity resistance          | no                           | • Water resistance       | no  |
| • Oil and grease resistance    | no                           | • Waterproof             | no  |
