

# tesa® 61914

## Product Information

### Repulpable, Double-Sided Splicing Tape

#### Product Description

tesa® 61914 is a double-sided repulpable tape consisting of a tissue paper and a modified water soluble acrylic adhesive.

tesa® 61914 features especially

- High tack properties
- Good adhesion values on coated and uncoated papers
- Good shear strength
- Good repulpability (w/o liner) over full pH-range (pH3 –pH9)

Colour: Blue

#### Application Fields

tesa® 61914 is particularly suitable for

- Flying and static splices in the printing and paper producing industry

#### Technical Information (average values)

The values in this section should be considered representative or typical only and should not be used for specification purposes.

#### Product Construction

- |                    |                      |                     |       |
|--------------------|----------------------|---------------------|-------|
| • Backing          | non-woven            | • Total thickness   | 75 µm |
| • Type of adhesive | modified acrylic     | • Color             | blue  |
| • Type of liner    | bi-siliconised paper | • Thickness of tape | 75 µm |

#### Properties/Performance Values

- |                           |      |        |      |
|---------------------------|------|--------|------|
| • Static shear resistance | good | • Tack | good |
|---------------------------|------|--------|------|
