

tesa® 88663 MP PET For Industrial Trade & Converting Market

A Universal Solution For Laminating and Converting

tesa® 88663 MP PET is a Multi-Purpose double-coated PET tape designed for a wide range of laminating and converting applications , featured by:

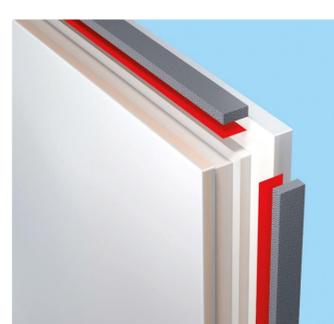

- The advanced adhesive system with well-balanced performance
- Strong film backing
- Humidity resistant PE coated paper liner

Technical Data

Product	Thickness [µm]	Adhesive	Backing	Initial Peel Adhesion to Steel [N/cm]	Ultimate Peel Adhesion to Steel [N/cm]	Short Term Temperature Resistance [°C]
tesa® 88663	150	Tackified Acrylic	PET	11.6	13.8	200

Typical Applications

tesa® 88663 MP PET is applicable to various bonding scenarios like foam and rubber lamination name plate mounting, light strip mounting and switch membrane mounting etc.

RoHs Complaint / REACH Compliant

This product complies with the European Union’s “Restriction of Hazardous Substances” (RoHs) initiative and with European REACH regulations (EC) No1907/2006
