

Now available: tesa® 60013 –
self-adhesive reinforced paper
packaging tape

tesa® 60013 – the perfect packaging tape for
challenging packaging applications

- Fiberglass reinforced kraft paper backing and high-performing synthetic rubber adhesive system
- Outstanding technical properties and performance
- Suitable for heavy-duty packaging applications (>25 kg)
- Tamper-evident seal
- Recycling-friendly according to INGEDE method 12

Outstanding performance for sustainable packaging

Different weights require not only different box types, but also different packaging tape types. tesa® 60013 has been developed to help you transport heavy-duty goods safely and undamaged to their final destination.

The paper backing for tesa® 60013 is reinforced with a fiberglass scrim, making this product the perfect solution for those packaging applications where a secure seal is required. Moreover, tesa® 60013 synthetic rubber provides very strong adhesion and tack on a wide variety of different carton qualities and is, therefore, ideal for the sealing of heavy-weight cartons.

Thanks to its excellent adhesion and very aggressive tack, a tamper evidence effect is achieved if tesa® 60013 is removed from the cardboard.

tesa® 60013 not only provides an outstanding performance, but it is also a sustainable packaging tape, as it can be disposed together with the box without endangering the cardboard recycling process (certified).

Product features

- High adhesion and tensile strength, aggressive tack
- Paper backing with fiberglass reinforcement
- Perfect solution for e-commerce activities
- Available in havanna

For heavy-duty packaging applications

Suitable for manual and automatic applications

Tamper-evident seal

Recycling-friendly packaging tape (certified)

	Backing	Type of adhesive	Color	Adhesion to steel [N/cm]	Total thickness [µm]	Tensile strength [N/cm]	Carton weight
tesa® 60013	Paper reinforced with fiberglass	Synthetic rubber	●	>11	200	125	>25 kg

Reduce and recycle

Ideally, this flyer should not have been printed. If paper products are unavoidable, the second-best option is to use responsibly sourced paper (e.g. FSC™-certified) and recycle the product after use.
