

tesa[®] 4288 PV10

Product Information

Medium duty tensilised strapping tape

Product Description

tesa[®] 4288 is an extremely stable, medium duty polypropylene strapping tape with a natural rubber adhesive system.

tesa[®] 4288 exhibits high tensile strength with low elongation at the same time. The applied product is highly heat- and cold-resistant and due to the black backing, extremely resistant to UV-light.

Product Features

- high tensile strength
- low elongation
- residue-free removability

Application Fields

Bundling of copper, iron and plastic pipes, palletising and coil tabbing.

Technical Information (average values)

The values in this section should be considered representative or typical only and should not be used for specification purposes.

Product Construction

- | | | | |
|--------------------|------------------|-------------------|--------|
| • Backing material | MOPP | • Total thickness | 114 µm |
| • Type of adhesive | synthetic rubber | • Colour | black |

Properties/Performance Values

- | | | | |
|-----------------------|----------|------------------------|-----|
| • Elongation at break | 35 % | • No discolouration | yes |
| • Tensile strength | 300 N/cm | • Residue free removal | yes |

Adhesion to Values

- | | |
|---------|--------|
| • steel | 6 N/cm |
