tesa® Professional 4363

Product Information

Adhesive cloth tape - 2 weeks UV-resistant

Product Description

tesa® 4363 is a waterproof adhesive cloth tape that is ideally suited to the temporary protection of window frames, door frames, façades and other sensitive surfaces. The combination of fabric (substrate) and natural rubber (adhesive mass) provides for impressive adhesive strength, even on rough surfaces. The adhesive cloth tape can be handled from temperatures as low as 5 °C, can be torn crossways and lengthways by hand, can be removed quickly and is altogether very easy to work with.

Product Features

- Outdoor masking (up to 2 weeks)
- Protection of delicate surfaces during plastering and painting
- Protection against dirt and damage through manufacturing tools and material
- Various applications in construction and house building
- Masking of window frames and facades

Technical Information (average values)

The values in this section should be considered representative or typical only and should not be used for specification purposes.

Product Construction

- Backing material   cloth
- Type of adhesive   natural rubber
- Total thickness   310 µm

Properties/Performance Values

- Elongation at break   11 %
- Tensile strength   60 N/cm
- Hand tearability   very good
- Humidity resistance   good

Adhesion to Values

- steel   3.6 N/cm
