

# tesa® Professional 60101

## Fibreglass tape

### Product Information

#### Fibreglass Tape

#### Product Description

tesa® 60101 self-adhesive fibreglass tape features the state of the art in joint tape technology.

With its very strong and flat fiberglass mesh, tesa® 60100 offers durable and long lasting drywall/plaster board joints.

The excellent adhesion and the very good tensile strength allow one-time application and smooth finished joints.

#### Product Features

tesa® 60101 is also used for fixing and patching small holes and cracks.

#### Technical Information (average values)

The values in this section should be considered representative or typical only and should not be used for specification purposes.

#### Product Construction

- |                    |            |                   |        |
|--------------------|------------|-------------------|--------|
| • Backing material | fibreglass | • Total thickness | 185 µm |
| • Type of adhesive | acrylic    |                   |        |

#### Properties/Performance Values

- |                       |     |                    |         |
|-----------------------|-----|--------------------|---------|
| • Elongation at break | 5 % | • Tensile strength | 50 N/cm |
|-----------------------|-----|--------------------|---------|

#### Adhesion to Values

- |         |          |
|---------|----------|
| • steel | 0.5 N/cm |
|---------|----------|
