 **Shufani**  
TAPE CONVERTING MACHINES

# About Us

## Development and construction of special machines since 1999

- Mechanical Engineering and Manufacturing
- Electrical Engineering
- Software, HMI, PLC Programming

## Equipment for the treatment, converting and processing of industrial adhesive tapes and related products such as **textiles, paper and films**.

- Roll to Roll
- Application on parts

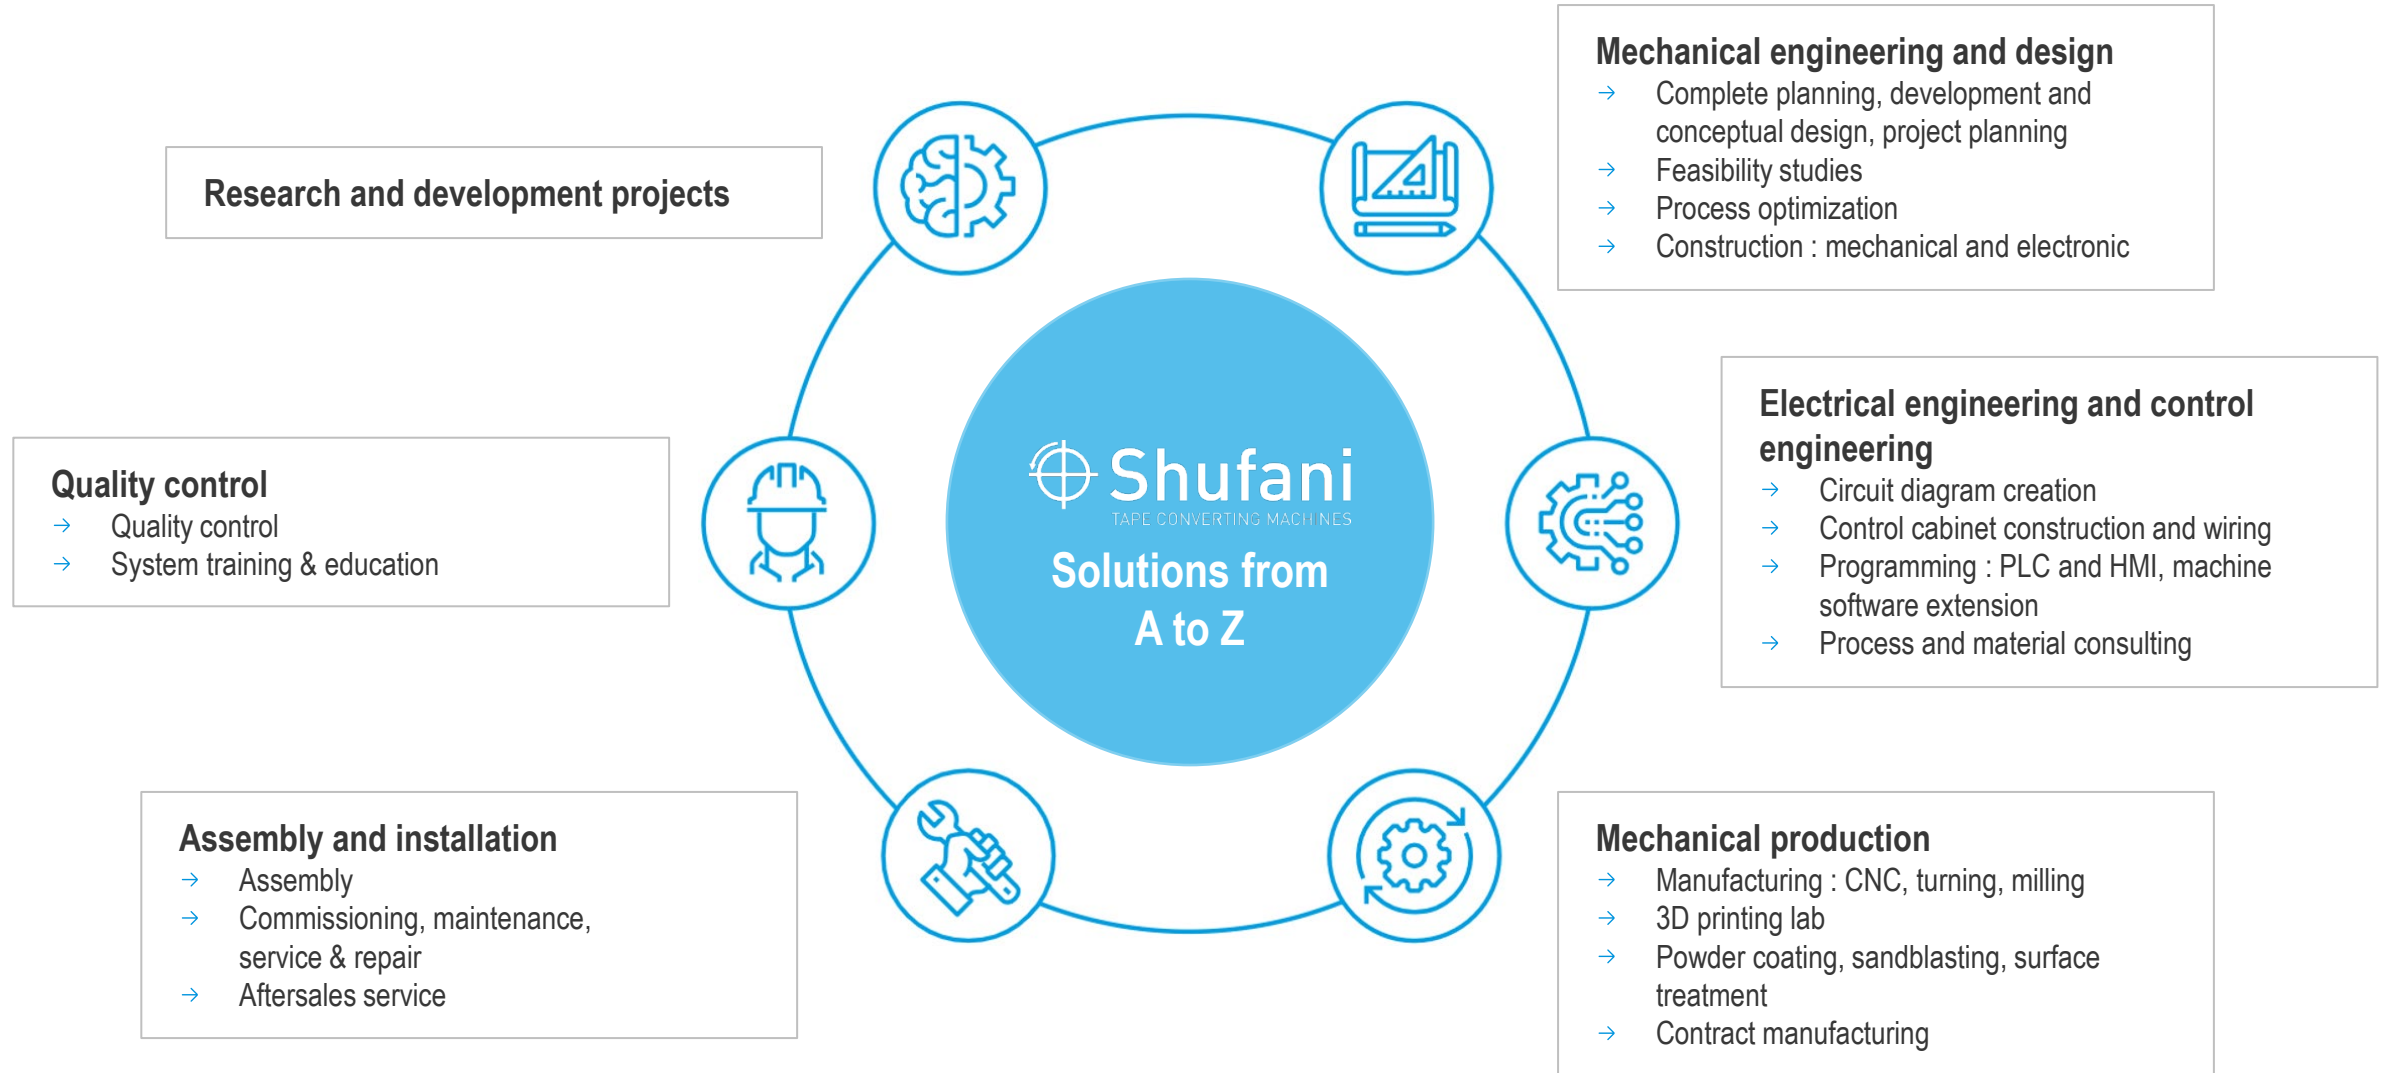

## Automation Solutions

## Partners

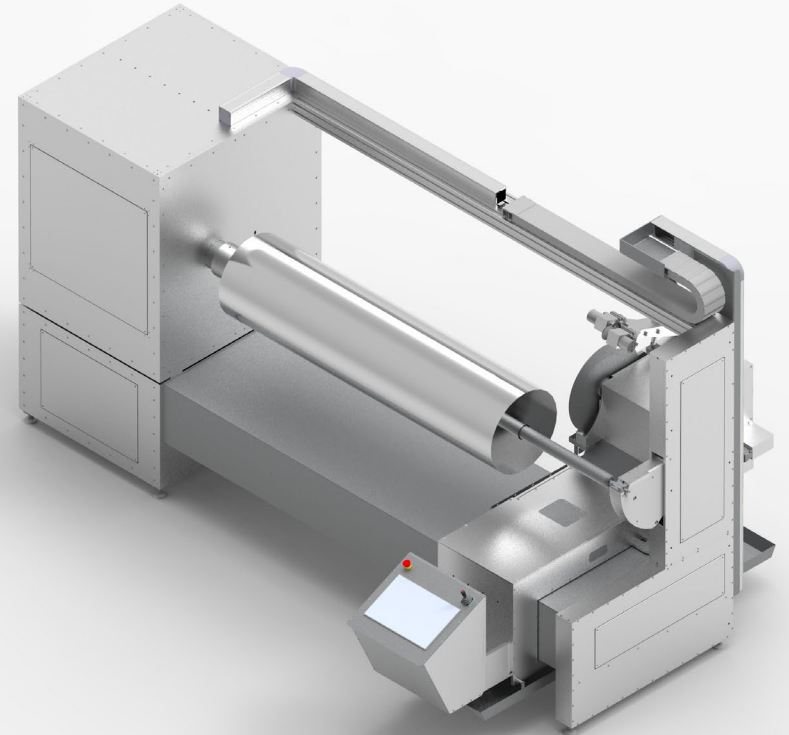

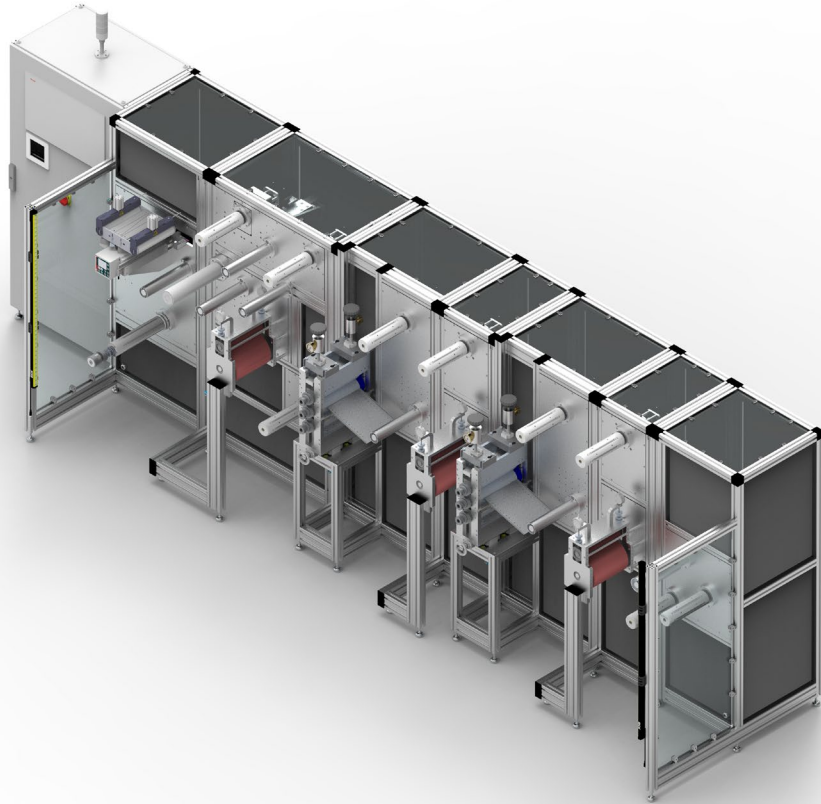

# Resources and Know-How

# Our Core Products: Rotary Die Cutting & Slitter

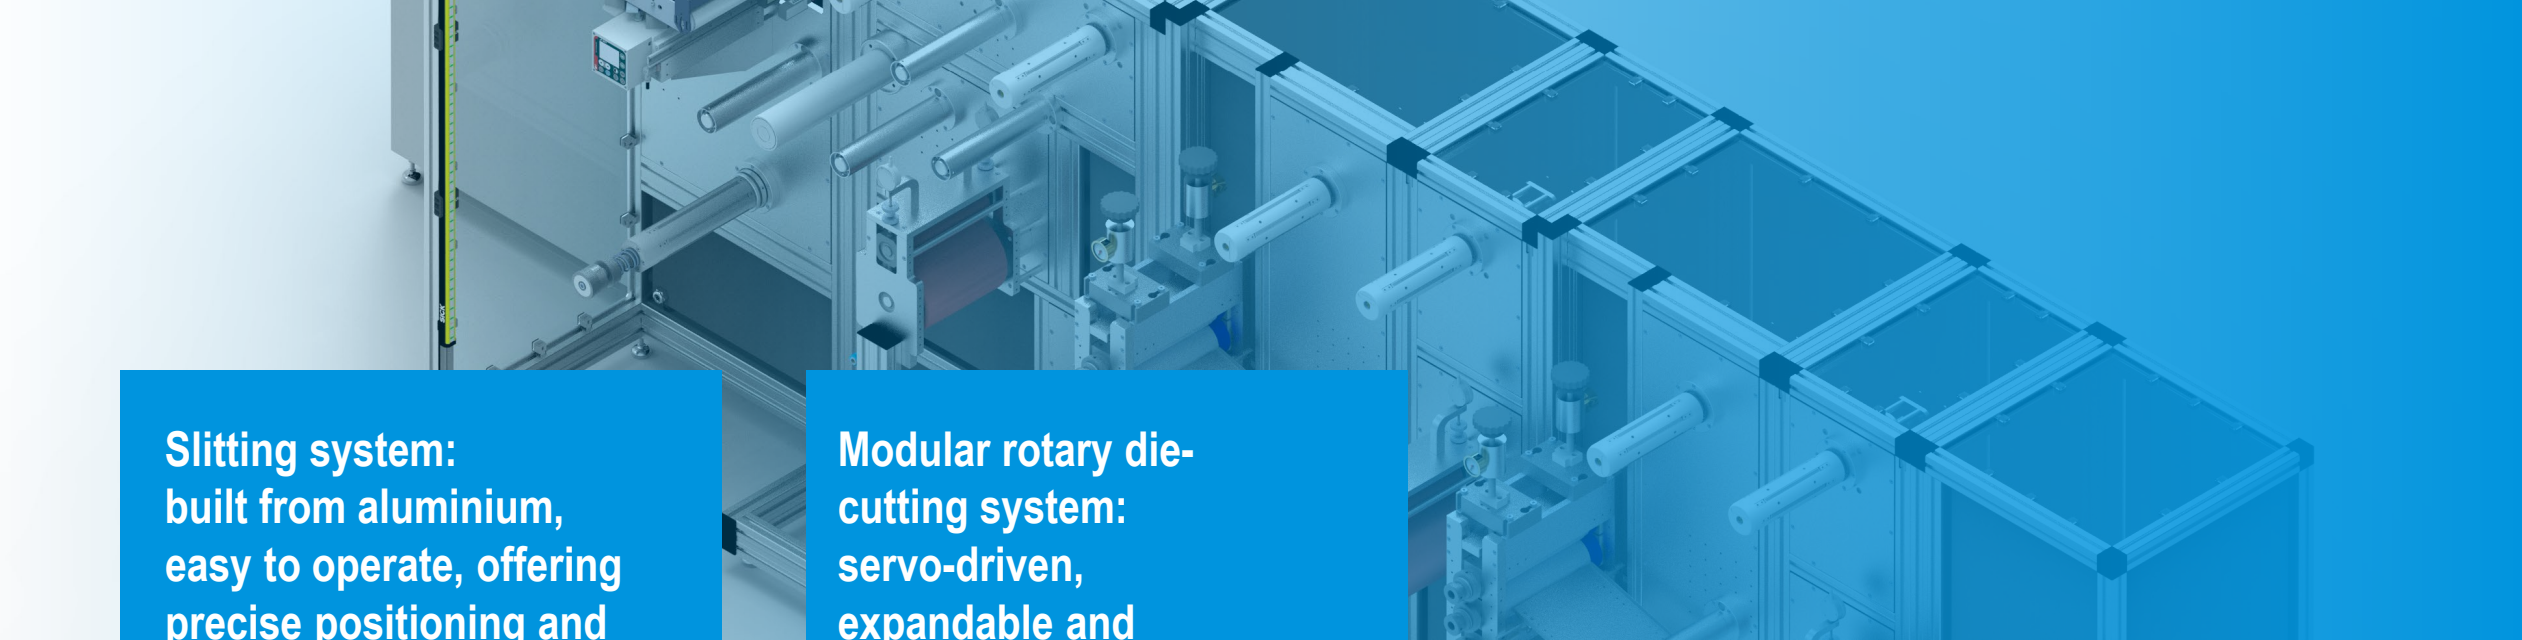

# Modular Rotary Die Cutting System

# Introduction to Our Core Products for Converters: Slitting and Rotary Die-Cutting

**Slitting system:**  
built from aluminium,  
easy to operate, offering  
precise positioning and  
featuring advanced  
functionalities.

**Modular rotary die-  
cutting system:**  
servo-driven,  
expandable and  
equipped with various  
accessories for  
tailored production.

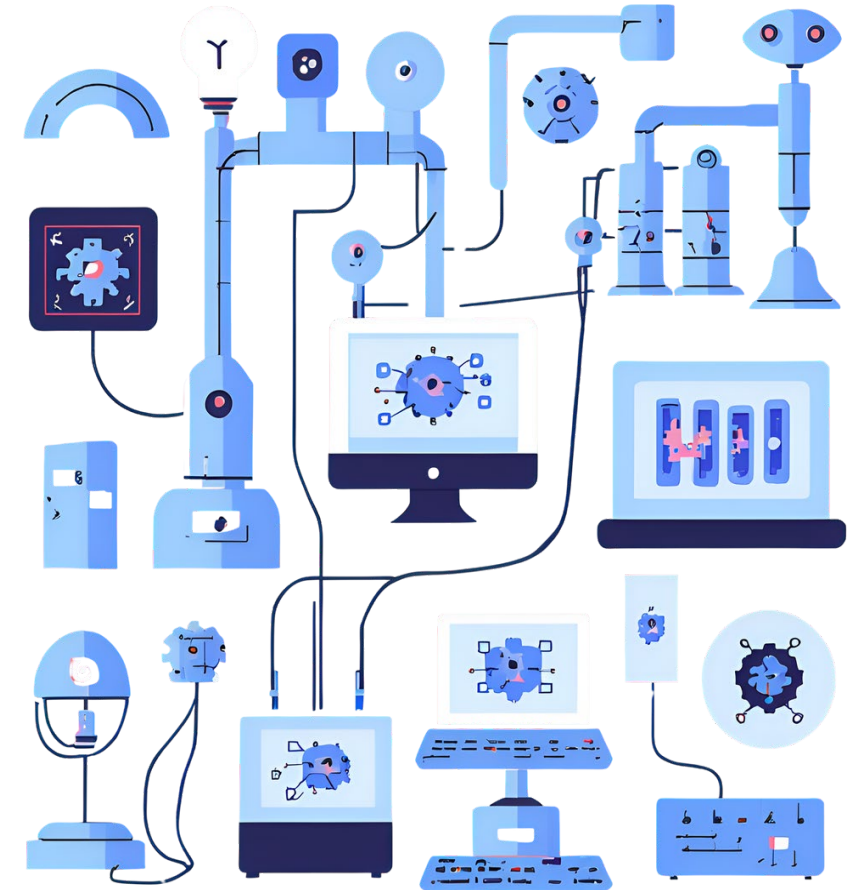

# Optimizing Adhesive Tape Converting: Our Machines Are AI-Ready

## How Artificial Intelligence Is Revolutionizing the Industry

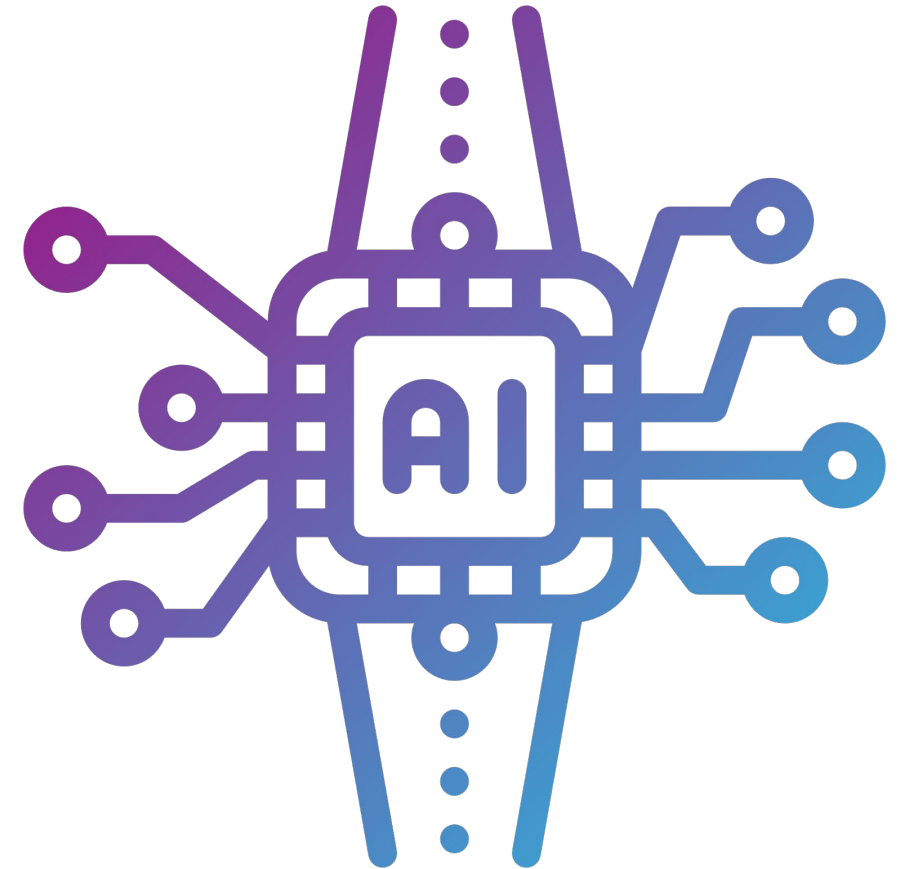

- ⊕ AI is transforming the manufacturing industry.
- ⊕ Predictive maintenance – Reduced downtime.
- ⊕ Automatic error detection through AI-powered quality control.
- ⊕ Real-time monitoring and analysis
- ⊕ Intelligent robotics and assistance systems.
- ⊕ AI can recognize patterns in data and make predictions.

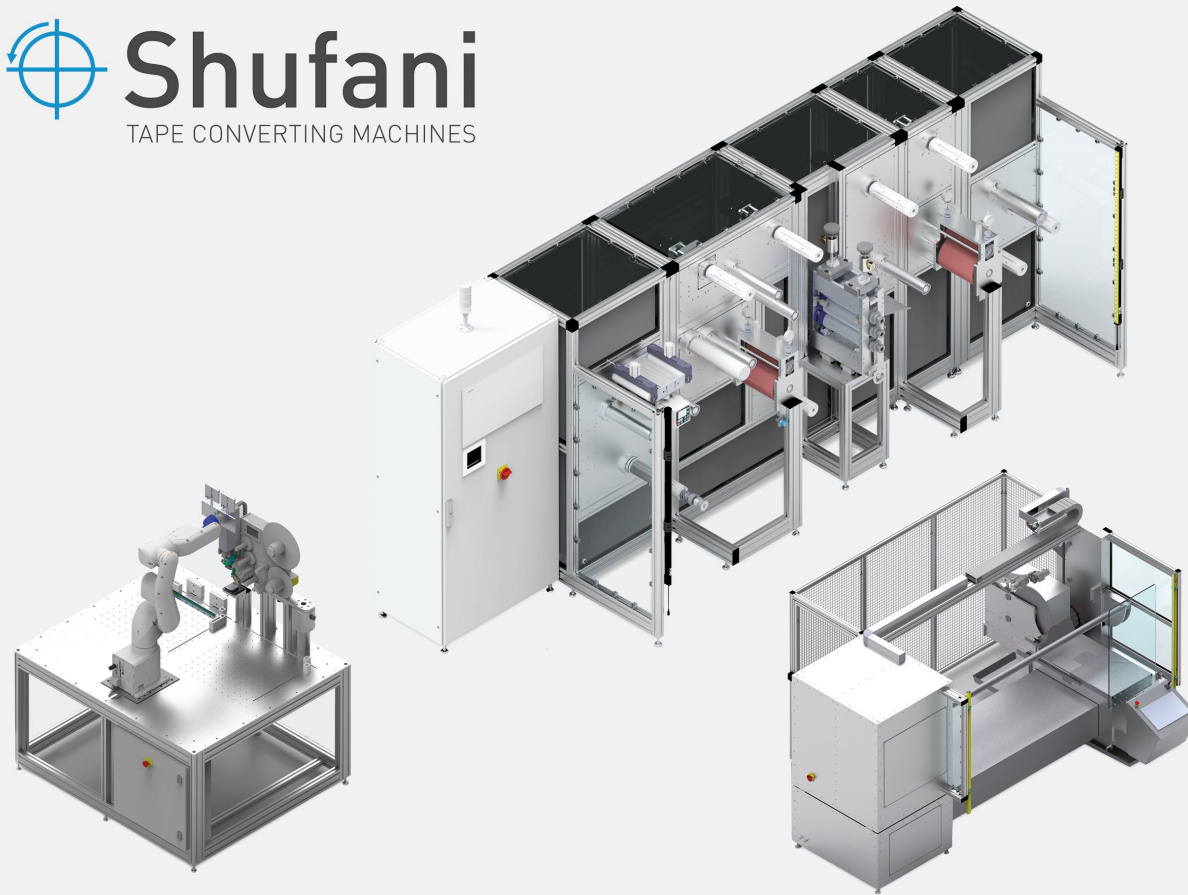

# AI is not just the future – it is reality today:

## Conclusion

- ⊕ **Production processes are becoming increasingly complex and require flexible solutions.**
- ⊕ **AI-ready means greater efficiency, predictive maintenance, and future-proof production.**
- ⊕ **Our machines are ready for tomorrow's challenges.**
- ⊕ **Let's shape the future together!**

Thank you !
