

# tesa® 8851

## Product Information

30µm double sided translucent non-woven tape

### Product Description

tesa® 8851 is an ultra thin double-sided non-woven tape, which has excellent temperature resistance property, ideal for micro-speaker dome mounting and FPC mounting applications.

The temperature resistant glassine liner ensures it can be easily released after solder reflow process.

### Product Features

- Ultra thin double-sided non-woven tape
- Stable holding power and peel strength after high temperature process
- High tensile strength
- Excellent die-cutting properties and very low oozing due to special backing
- High conformability for uneven surfaces
- Conformity to RoHS regulations
- High aging resistance
- tesa® 8851 is made from special tackified acrylic adhesive system and uses an ultra thin non-woven backing, which offers excellent temperature resistance up to 260°C and excellent converting performance.

### Application Fields

- Micro speaker dome mounting application
- FPC mounting application
- Mounting of electronics components, subjected to high temperature process

### Technical Information (average values)

The values in this section should be considered representative or typical only and should not be used for specification purposes.

### Product Construction

• Backing material	ultra thin non-woven	• Colour of liner	white/red logo
• Type of adhesive	tackified acrylic	• Thickness of liner	71 µm
• Total thickness	30 µm	• Weight of liner	82 g/m <sup>2</sup>
• Colour	translucent		

# tesa<sup>®</sup> 8851

## Product Information

### Adhesion to Values

• ABS (initial)	3.4 N/cm	• PET (initial)	4 N/cm
• ABS (after 14 days)	4.6 N/cm	• PET (after 14 days)	4.4 N/cm
• Aluminium (initial)	3.5 N/cm	• PI (initial)	4.3 N/cm
• Aluminium (after 14 days)	5.5 N/cm	• PI (after 14 days)	4.4 N/cm
• PC (initial)	3.7 N/cm	• Steel (initial)	4 N/cm
• PC (after 14 days)	5 N/cm	• Steel (after 14 days)	5.5 N/cm
