

tesa® 51193PV1

Product Information

Splittable repulpable double sided tape for core starting

Product Description

tesa® 51193 is a repulpable double-sided tape. It consists of a splittable paper backing and modified water soluble acrylic adhesive. The liner is made of repulpable paper.

Colour: Blue

Product Features

- Special splittable backing leaves no open adhesive residues and enables full utilisation of the paper roll
- Splitting force especially adjusted to high grammage paper and board
- Very low deviation of the splitting force
- Very good adhesion even on rough surfaces
- High initial tack
- Fully repulpable (pH3 –pH9)
- Paper from well-managed certified forests and other controlled sources

Technical Information (average values)

The values in this section should be considered representative or typical only and should not be used for specification purposes.

Product Construction

• Backing material	Splittable paper	• Total thickness	165 µm
• Type of adhesive	repulpable tackified acrylic	• Colour	blue
• Type of liner	repulpable siliconised paper		

Properties/Performance Values

• Shelf life time (packed) < 25°C	16 months	• Tack	very good
• Static shear resistance	good
