

# tesa® CUSTOMER SOLUTION CENTRE

## Enhance your Products and Optimise your Production Processes

tesa's Customer Solution Centre provides customers with tested solutions designed to meet product and manufacturing needs. Through close communication, tesa works with customers to manufacture quality, innovative and long-lasting products.

### On-site Support

- Production facility visits to analyse and recommend suitable tape solutions.
- Insight aimed to increase industrial process efficiency and enhance performance.
- New process implementation support and additional engineer visits as required.

### Training

- Technical training courses and workshops provided to share latest adhesive tape solutions.
- Learn the characteristics of a wide range of tapes and how to select the ideal solution.
- Participate at tesa headquarters or request individual sessions at your production facility.

### Process Engineering

- Achieve a reliable and durable bond through correct application and positioning.
- Access tools designed to optimise results, by hand or automatically.
- Review your production process to guarantee seamless integration into your workflows.

### Certification

- Ensure all bonding and assembly processes remain safe and efficient.
- Find certified tapes that perfectly fit your requirements.
- Gain certification for new tailor-made products and solutions.

### Product Recommendation

- Aid sales teams in identifying the key specifications of your project.
- Utilise lab testing, including real-time digital consultant material tests, to find the perfect tape.
- Discover the appropriate tape for specific environmental conditions and methods.

If you would like to find out more about adhesive tape solutions, why not attend one of our training sessions? We are located in Europe, China and the United States.
