tesa EasySplice® 51150 FastLine

product information

Repulpable, double-sided splicing tape
tesa® 51150 EasySplice FastLine is a repulpable double-sided integrated flying splice tape consisting of a flat-back paper and a modified water soluble acrylic adhesive

tesa® 51150 EasySplice FastLine features:
• Highest tack properties
• Very good adhesion values on coated and uncoated paper
• Low splice thickness
• Printable and coatable backing
• Good repulpability over pH-range: pH3 – pH9

Following functions are provided:
• Slit liner for the secure fixing of the top sheet
• Adhesive formulation with very high tack properties for excellent contact between expiring web and new reel
• Two splitting strips with paper backing for a smooth opening of the new paper reel without affecting the coating process

Colour: Blue

Main Application
tesa® 51150 EasySplice FastLine is particularly suitable for:
• Flying splices at fast running off-line coaters

Technical Information (average values)
The values in this section should be considered representative or typical only and should not be used for specification purposes.

Technical Data
- Backing material
  flat paper
- Total thickness
  100 µm
- Type of adhesive
  repulpable tackified acrylic
- Elongation at break
  6 %
- Tensile strength
  30 N/cm
- Type of liner
  repulpable siliconised paper
- Shelf life time (packed) < 25°C
  12 months

Properties
- Tack
