

AUTOMATED SOLUTIONS FOR HOLE COVERING

Your Personal Invitation to the tesa Hole Covering Days

It is a great pleasure to invite you to the tesa headquarters. This cross-customer event is specifically put together for our business partners from various OEMs to cover the following topics:

Bonding technology – The benefits of tapes

Experience the possibilities that tapes offer in the area of hole covering. Listen to our experts' experiences to convince yourself of the advantages of tapes.

Automation – The future of application processes

Let yourself be inspired by our automation show and recognize new ways to solve existing challenges following the slogan faster, simpler, better. View the automated solutions of tomorrow and share your thoughts to help get our portfolio even closer to your needs.

tesa – Your partner for adhesive solutions

Meet our experts in person, let us guide you through our world of adhesive solutions for the automotive industry, and learn about the tesa mindset. We think that good co-working and the endorsement of competencies between companies are guarantors for the next innovations.

It Is Your Choice

As we work within an international network of engineers, account managers, and R&D labs, you can choose the language you prefer:

October 23 – German Tech Day

October 24 – English Tech Day

October 25 – French and Italian Tech Day

Please send us your preferred day and the number of colleagues accompanying you by September 3, 2018 at the latest to enable better planning.
