

# tesa<sup>®</sup> 6940 PV5 Black Glossy

## Product Information

### Technical Information (average values)

The values in this section should be considered representative or typical only and should not be used for specification purposes.

### Product Construction

- |                    |         |                   |                      |
|--------------------|---------|-------------------|----------------------|
| • Backing          | Acrylic | • Type of liner   | coated paper         |
| • Type of adhesive | acrylic | • Weight of liner | 120 g/m <sup>2</sup> |

### Properties/Performance Values

- |                             |           |                                     |                                  |
|-----------------------------|-----------|-------------------------------------|----------------------------------|
| • Ageing resistance (UV)    | very good | • Suitable laser                    | CO <sub>2</sub> , Nd:YAG, Yb:YAG |
| • Chemical Resistance       | very good | • Tamper evidence                   | yes                              |
| • Frost resistance          | -40 °C    | • Temperature resistance long term  | 120 °C                           |
| • Humidity resistance       | very good | • Temperature resistance short term | 270 °C                           |
| • Peel off force from liner | 0,5-10    |                                     |                                  |

### Storage Conditions

#### Storage Conditions

23°C, 50% RH, stored in original box
