

# tesa® Professional 60951

## Product Information

## Technical Information (average values)

The values in this section should be considered representative or typical only and should not be used for specification purposes.

### Product Construction

- |                    |  |                   |        |
|--------------------|--|-------------------|--------|
| • Backing          | PVC film coated with mineral particles | • Total thickness | 900 µm |
| • Type of adhesive | acrylic                                |                   |        |

### Properties/Performance Values

- |                       |         |                       |           |
|-----------------------|---------|-----------------------|-----------|
| • Elongation at break | 25 %    | • Hand tearability    | good      |
| • Tensile strength    | 30 N/cm | • Humidity resistance | very good |
| • Chemical Resistance | good    |                       |           |

### Adhesion to Values

- |         |          |
|---------|----------|
| • Steel | 5.8 N/cm |
|---------|----------|
