

# tesa<sup>®</sup> 62571

## Product Information

Spacer tape for IVD products

### Product Description

tesa<sup>®</sup> 62571 is a double-sided self-adhesive tape consisting of a white PET film coated with a clear pressure sensitive adhesive.

tesa<sup>®</sup> 62571 features:

- \* Oozing-free pure acrylic adhesive
- \* High shear resistant adhesive
- \* Reliable adhesion with low adhesive grammage
- \* Excellent ageing stability
- \* Low VOC
- \* Proven compatibility with many enzymes
- \* Minimal adhesive residues even after long slitting and die cutting processes

### Product Features

- Oozing-free pure acrylic adhesive
- High shear resistant adhesive
- Reliable adhesion with low adhesive grammage
- Excellent ageing stability
- Low VOC
- Proven compatibility with many enzymes
- Minimal adhesive residues even after long slitting and die cutting processes

### Application Fields

tesa<sup>®</sup> 62571 is a double-sided spacer tape for capillary cell in-vitro diagnostic applications.

## Product Information

### Product Construction

- |                    |              |                     |             |
|--------------------|--------------|---------------------|-------------|
| • Backing          | PETP         | • Color             | white       |
| • Type of adhesive | pure acrylic | • Color of liner    | transparent |
| • Type of liner    | PET          | • Thickness of tape | 80 µm       |

### Product Assortment

- |                    |       |                         |      |
|--------------------|-------|-------------------------|------|
| • Available colors | white | • Available thicknesses | 80µm |
| • Available liners | PET   |                         |      |

### Additional Information

tesa<sup>®</sup> 62571 is equipped with two PET liner versions:

\* Liner A: thickness 36µm, easy release

\* Liner B: thickness 50µm, tight release
