

tesa[®] 58372

Product Information

50µm double sided PET flame retardant tape

Product Description

tesa[®] 58372 is a translucent, double-sided PET tape equipped with flame retardant tackified acrylic adhesive.

The flame retardant acrylic adhesive gives this product unique anti-flaming property, and also a good bonding performance even after long-term storage conditions. Its ultra thinner PET backing offers excellent converting performance for purpose of lamination. The white/red logo glassine liner ensures it can be easily released without adhesive residue.

Key features of tesa[®] 58372:

- Thickness: 50µm
- Flame retardant per UL 94 VTM-0 level
- Good bonding performance
- High long-term reliability and aging resistance
- Good handling performance in converting process
- Conforming to RoHS, REACH
- Halogen-free

Application Fields

tesa[®] 58372 can be introduced for EV battery pack sealing when it laminated with foam to meet the flame retardant target for E-mobility market. It is also used for general mounting applications especially in the EV battery system and the other environment in automotive industry when it comes with anti-flaming requirement.

Technical Information (average values)

The values in this section should be considered representative or typical only and should not be used for specification purposes.

Product Construction

• Backing material	PET film	• Color	translucent, transparent, optically clear
• Type of adhesive	tackified acrylic, acrylic, advanced acrylic, modified acrylic	• Colour of liner	white/red logo
• Type of liner	glassine	• Thickness of liner	69 µm
• Total thickness	50 µm	• Weight of liner	80 g/m ²

Properties/Performance Values

• Humidity resistance	good	• Temperature resistance long term	125 °C
• Static shear resistance at 23°C	good
