

# tesa 75805

## Product Information

50µm d/s Chemical resistant acrylic foam tape

### Product Description

tesa® 75805 is a double-sided black tape. It is equipped with a high shock absorbing and chemical resistant adhesive.

Special features:

- Thickness: 50µm
- Excellent chemical resistance
- Very high shock performance
- Good wettability
- High sealing ability with superior waterproof (IPX8)

### Application Fields

- Demanding touch panel, lens or screen mounting applications with high requirements for chemical and impact resistance
- Component mounting with high requirements for chemical and impact resistance
- Mounting of 3D or ultra slim bezel designs
- Mounting of waterproof designs

### Technical Information (average values)

The values in this section should be considered representative or typical only and should not be used for specification purposes.

### Product Construction

- |                    |         |                      |                     |
|--------------------|---------|----------------------|---------------------|
| • Backing material | none    | • Colour of liner    | transparent         |
| • Type of adhesive | acrylic | • Thickness of liner | 50 µm               |
| • Type of liner    | PET     | • Total thickness    | 50 µm               |
| • Color            | black   | • Weight of liner    | 72 g/m <sup>2</sup> |

### Properties/Performance Values

- |                          |           |
|--------------------------|-----------|
| • Ageing resistance (UV) | very good |
|--------------------------|-----------|

### Adhesion to Values

- |                     |          |                        |          |
|---------------------|----------|------------------------|----------|
| • PC (initial)      | 7 N/cm   | • Steel (initial)      | 7 N/cm   |
| • PC (after 3 days) | 8.5 N/cm | • Steel (after 3 days) | 7.5 N/cm |
