

tesa® 60412 70% PCR PET CST

Product Information

Recycled PET Packaging Tape

Product Description

tesa® 60412 is a general-purpose packaging tape based on a 70% Post-Consumer Recycled (PCR) PET backing and a water-based acrylic adhesive system. tesa® 60412 has a strong and abrasion resistant backing with excellent bearing and wear properties. It features a very consistent, pressure sensitive acrylic adhesive, making this product the perfect solution for light- and medium-weight packaging application (max. 30 kg / 66 lbs). The material combination guarantees a quiet unwind and an excellent printability with all types of ink systems.

- The backing material is made of post-consumer recycled PET (70% recycled content).
- This product can be disposed together with the box into the blue bin without endangering the cardboard recycling process (certified according to INGEDE method 12).
- The production process of this product is solvent-free.

tesa® 60412 not only provides an outstanding performance, but it is also an advanced alternative contributing to sustainability: It also has a very good performance on recycled cardboards.

Sustainable Aspects

- Backing made with 70% recycled PET from post consumer waste
- · Solvent-free production process
- · Recycling friendly adhesive does not disturb the paper recycling process

Product Features

- Backing made with 70% recycled post consumer waste
- · Strong, tear and puncture resistant PET backing
- · Versatile water based acrylic adhesive
- · Smooth, silent unwinding
- · Available in brown, white and transparent

Application Fields

- · Sealing of cardboard boxes
- Suitable for light- and medium-weight packaging applications (max. 30 kg / 66 lbs)
- Excellent adhesion in recycled cardboards
- · Suitable for manual and automatic dispensers
- · Brand showcase and advertising purposes
