

# CONVINCING VERSATILITY FOR A WIDE RANGE OF PRINT JOBS

## Plate Mounting with Incompressible Tapes

As part of our comprehensive assortment of tesa® plate mounting tapes, we offer incompressible tapes with film or cloth backings, used whenever a cushion (through a foam tape) is not required.

These tapes can be used in a variety of different print jobs, whether it is Flexo printing of corrugated board (Postprint), Flexo printing of film with compressible sleeves, letterpress printing of labels, or dry offset printing of cups, to just name a few. Our dedicated sales team will assist in choosing the most suitable tape for your process needs.

### Our tesaprint® assortment offers:

- Reliable adhesion properties, tailored to the specific requirements of the application
- Different film and cloth backing materials, ensuring a range of required product thicknesses and stable and easy tape application
- Optimized release liners, promoting easy application and ideal handling
