

# tesa<sup>®</sup> 4215

## Product Information

PVC-free fineline and overmasking tape for design painting in the automotive paint shop

### Product Description

tesa<sup>®</sup> 4215 is a high-quality PVC-free fineline tape with a rubber adhesive. It is designed for applications where sharp color edges for two-tone designs are required. The PE backing of tesa<sup>®</sup> 4215 leads to an overall flexible behavior of the tape, thus allowing application to narrow curves and difficult 3-D shapes.

The temperature resistance of 120°C/1h allows the use of tesa<sup>®</sup> 4215 in medium-temperature applications, such as car bumper masking.

Standardized and customized applicators for tesa<sup>®</sup> 4215 are available to ensure efficient tape application.

Main features:

- Very flexible tape for narrow curves and difficult 3-D shapes
- Residue-free removal up to drying temperatures of 120°C
- Easy unwinding, also suitable for overmasking
- Halogen-free tape design

### Technical Information (average values)

The values in this section should be considered representative or typical only and should not be used for specification purposes.

### Additional Information

Fineline tape can be applied by hand or by using dispensers, die cuts are available as tesa<sup>®</sup> 54215
