

DESIGNED TO DO MORE FOR LESS

Streamline Your Production Process With Custom Application Solutions from tesa

As a leading global producer of pressure sensitive adhesive tapes, we work closely with OEMs and suppliers to solve problems and provide process improvement.

At tesa, we do more than sell tape. From in-depth plant analysis to the prototyping of custom application technology, our team of seasoned Application Solution Engineers help you and your team achieve greater operational efficiency, cost savings, and product quality.

Because every production line is different, we develop a tailored program of equipment and support based on thorough process analysis and custom applicator design.

Less Time, Lower Costs, Better Results

Our application solutions make your job easier

- **Lightweight handheld application devices**
Custom ergonomic applicators for more efficient, accurate tape placement
- **Stationary tabletop systems**
For the quick, precise application of mounting tapes
- **Fully automated systems**
Programmable with pre-set length, piece control, and photo sensor cutter
- **Pressurizing tools**
Used to pressurize tapes to the attachment part, or to attach parts to the car body
- **Custom squeegees**
For removal of air bubbles trapped under the surface without damaging the film
- **Custom u-profile tools**
Used for the secure bonding and bubble-free tape application over difficult profiles
- **Pre-loaded cartridges**
For a quick and simple roll exchange in the dispenser
- **Custom knives**
For the easy and precise cutting of protection films

tesa® products prove their impressive quality day in, day out in demanding conditions and are regularly subjected to strict controls.
