

# tesa® 4967 - Team 4965 Thin

# tesa /

## **Product Information**

160µm/6.3 mils double sided transparent PET tape

# **Product Description**

tesa® 4967, also known as Team 4965 Thin, is a transparent, double-sided self-adhesive tape consisting of a PET backing and a modified acrylic adhesive. It is based on a patented and protected product formulation. Several products are equipped with this unique and high performing product design and together these products make up Team 4965.

This double-sided film tape assortment helps to easily select the most efficient tape based on customer demands, products, and processes. Explore the benefits of the full tesa® 4965 assortment here: https://www.tesa.com/en-us/industry/general-applications/mounting/team-4965-assortment

#### **Product Features**

- Extremely high holding power even at elevated temperatures
- · Superior converting performance due to strong PET backing and reduced adhesive mass flow
- Good bonding performance even to LSE materials

# **Application Fields**

- · Mounting lenses to mobile phone housings
- Mounting of ABS plastic parts in the automotive industry
- Mounting of decorative profiles and moldings in the furniture industry

## Technical Information (average values)

The values in this section should be considered representative or typical only and should not be used for specification purposes.

#### **Product Construction**

•	Backing material	PET film	•	Total thickness	160 μm
•	Type of adhesive	tackified acrylic			6.3 mils
			•	Color	transparent

# **Properties/Performance Values**

•	Elongation at break	50 %	•	Static shear resistance at 23°C	good
•	Tensile strength	20 N/cm	•	Static shear resistance at 40°C	good
		11.4 lbs/in	•	Tack	good
•	Ageing resistance (UV)	very good	•	Temperature resistance long	100 °C
•	Chemical resistance	good		term	212 °F
•	Humidity resistance	very good	•	Temperature resistance short	200 °C
•	Softener resistance	good		term	392 °F

#### **Additional Information**

Liner variants:

• PV6: red MOPP film (80μm / 3.1 mils; 72g/m²)

According to VDA278 analysis, tesa® 4967 - Team 4965 Thin does not contain any single substances restricted by the drafted GB regulations (China) as well as the indoor concentration guideline by Health, Labour and Welfare Ministry (Japan).
