

Fast & easy: Glue it with the tesa Glue Stamp ecoLogo®

Quickly file a few invoices or create a collage for a birthday? No problem with tesa's latest product innovation: The Glue Stamp ecoLogo® is yet your fastest gluing partner. Besides its efficient use, the Glue Stamp also convinces with its adhesive power and fun factor.

Organize your home office or create a photo book of your holidays: When we need to glue something in our everyday life, it usually must be done quickly and stick permanently. And tesa has the right solution for you!

Super-fast and extremely strong

The tesa Glue Stamp ecoLogo® – available since January 2017 – scores with its very quick use. And the stamp is very easy to use: Position it, press it down, and you've applied a double-sided adhesive pad. The 8.4 mm x 8.4 mm pad offers a super strong and permanent adhesion. The innovative method of applying the adhesive also ensures precise and clean gluing – no more wasted material and glue. Overall, the new product allows you to stamp more than 1100 times.

Endless possibilities of use

With the stamp, not only invoices filing becomes a piece of cake – also scrapbooking, photo collages, creative gift wraps or decorations are now done in no time. There are no limits to your creativity. It's so quick and easy, all tasks will turn into a pleasure! Thanks to its efficient and easy use, the Glue Stamp is also suitable for children.

Extension of the ecoLogo® range

This new product is not only a creative everyday helper, but also environmentally friendly. Thus, the Glue Stamp is a part of the tesa ecoLogo® range. With the introduction of the tesa ecoLogo® range in 2010, tesa became the pioneer of the "green wave" in the paper, office and stationery section. For this market segment, among others, adhesive rollers, adhesive films, packaging tapes, glue sticks and correction rollers are produced under solvent-free conditions and by using mainly recycled materials. The tesa ecoLogo® supply is continuously expanded and convinces with new products, which satisfy both user and environment. The same holds true for the Glue Stamp: Its housing is made of 100% recycled plastic and the adhesive is free from solvents.
