

tesa® Waterproof XL

Product Information

BNR 40519

Product Description

tesa® Powerstrips Waterproof XL strips are a water-resistant adhesive solution great to mount objects in bathrooms and other humid areas. With a holding power of up to 3 kg per strip and its extra large size, they are ideal to securely fix objects to smooth surfaces and tiles. With tesa® Powerstrips Waterproof XL strips no need for drill or tools, they are clean, easy to use and can be removed without any trace. Powerstrips® Waterproof XL strips may be used on its own or to remount tesa® Lavaa and tesa® Baboo products.

Product Features

- tesa® Powerstrips Waterproof XL: Adhesive strips for fast, clean and easy mounting
- Self-adhesive strips for hanging and mounting objects in bathrooms of up to 3 kg
- Specially developed for humid environments and usage directly in the shower and bathtub area
- Clean installation: No need for drills or other tools to mount bathroom objects, no surface damage
- Residue-free removal: tesa® Powerstrips Waterproof XL strips can be easily removed and leave no traces behind
- Adheres to glazed tiles, marble, metal, glass, wood, and plastics (ABS, PS, Acrylic Glass)
- Not suitable for stone, cement, wallpaper, plaster, enamel varnish and plastics such as PP, PE and PTFE
- Refill strips for tesa® Lavaa shower baskets and tesa® Baboo storage boxes

Application Fields

Mounting

1. Clean the surface with alcohol or silicone-free glass cleaner
2. Wipe the waterproof primer over the surface using the primer tissue- wait for 10 seconds to allow the primer to evaporate
3. Attach the Powerstrips® Waterproof XL strip to the object - press firmly for 5 seconds minimum
4. Remove the cover sheets from the Powerstrips®
5. Position the object on the surface - press firmly towards the wall
6. Make sure the tab can be accessed for removal

Disassembly

1. First stretch the tab of the Powerstrip® to around 3-5 cm, hold object tight - don't press it on, and keep stretching the Powerstrip® parallel to the surface (do not pull strip away from the surface, as Powerstrip® may rip)

Technical Information (average values)

The values in this section should be considered representative or typical only and should not be used for specification purposes.

Product Construction

- Type of adhesive synthetic rubber
- Holding power of strip up to 3 Kg
- Total thickness 650 µm
