

# **Product Information**

### 30µm double sided transparent tape

#### **Product Description**

tesa® 63303 is a double-sided mounting tape with a special reworkable adhesive

#### **Product Features**

- Thickness: 30μm
- High bonding strength
- Very high push out and shock resistance
- High performance on LSE substrates
- Excellent permanent reworkability on various substrates
- After separation the adhesive is reworkable by stretching or peeling
- · Easy reworkability even after a long bonding time

#### **Application Fields**

- Demanding mounting
- Permanent mounting of components in electronic devices with the option to remove the parts for repairing or recycling
- Temporary mounting prior to mechanical fixation

#### Technical Information (average values)

The values in this section should be considered representative or typical only and should not be used for specification purposes.
