

## BNR 55286, 55296, 55297

The tesa® pollen filter screen is a blessing for allergy sufferers with light to medium symptoms. With the effective filtering, it alleviates hay fever and other discomforts. The pollen screen can be easily and quickly mounted. Opening and closing of the windows is still effortlessly possible.

- Pollen filter screen for windows to effectively protect against airborne pollen while providing fresh air at the same time
- Keeps at least 98% of birch, grass and ragweed pollen out
- Good visibility
- Optimal air and light permeability
- Quick and easy mounting with self-adhesive tesa® hook and loop tape
- For allergy sufferers with light to medium symptoms

Pollen protection screens are part of secondary prevention and do not substitute any medical treatment. They prevent pollen from entering residential areas and hence reduce allergic symptoms. However, they do not grant entire pollen protection.

The values in this section should be considered representative or typical only and should not be used for specification purposes.
