Application Fields

How to apply – Step by step1. To ensure the best possible bond, clean the surface of dirt and dust with a dust-free cloth.
2. Make sure you attach the mounting tape to the rougher surface first. In the case of wallpaper or plaster, this will be the wall. Affix vertical strips that correspond to the entire length of the object. Reinforce the upper portion with shorter strips, since that's where the majority of the weight will be born. Press down firmly across on the entire Mounting Tape surface for at least five seconds.

3. Remove the protective foil from the tape and position the item on the surface. Take care not to touch the exposed adhesive surface as this could affect the adhesion.

4. Press firmly on the item for another 5 seconds to ensure an optimal bond with the surface.
