

# tesa® 4338

## Product Information

## Technical Information (average values)

The values in this section should be considered representative or typical only and should not be used for specification purposes.

### Product Construction

|                    |                       |                                                                    |        |
|--------------------|-----------------------|--------------------------------------------------------------------|--------|
| • Backing          | slightly-creped paper | • Total sustainable product excl. liners by weight (acc. EN 16785) | 54 %   |
| • Type of adhesive | natural rubber        | • Total thickness                                                  | 145 µm |

### Properties/Performance Values

|                       |         |                                   |           |
|-----------------------|---------|-----------------------------------|-----------|
| • Elongation at break | 13 %    | • Hand tearability                | very good |
| • Tensile strength    | 43 N/cm | • Temperature resistance (30 min) | 120 °C    |
| • Easy to remove      | yes     | • Temperature resistance (60 min) | 120 °C    |

### Adhesion to Values

|         |          |
|---------|----------|
| • Steel | 3.5 N/cm |
|---------|----------|

## Disclaimer

tesa® products prove their impressive quality day in, day out in demanding conditions and are regularly subjected to strict controls. All information and recommendations are provided to the best of our knowledge on the basis of our practical experience.
