

# tesa® 4216 RollMasker LT

## **Product Information**

Highly efficient overmasking solution for 2-tone paintings at low temperatures

# **Product Description**

tesa® 4216 Rollmasker LT is a combination of 4216-tape and a HDPE-film for large area maskings during mulitcolor car paintings. Thus, it can be used at paintings with wet-demasking processes.

#### **Product Features**

- · Statical loading of film eliminates risk of overspray as well as paint deformations on the car body
- · tesa dispenser available for roll masker
- It ensures an efficient and reliable masking process with a temperature resistance of up to 80°C/60 min
- The combination of tape and film reduces process times and material waste at the OEM compared to a stand-alone filmic hood.

### **Application Fields**

tesa® 4216 Rollmasker LT is suitable for various types of masking applications. Example applications are:

- Car body masking
- · Efficient overmasking
- Bumper masking without flaming or powerwash requirements
- · Masking with wet de-masking processes

#### Technical Information (average values)

The values in this section should be considered representative or typical only and should not be used for specification purposes.

#### **Product Construction**

•	Backing	PE film	•	Total thickness	105 μm
•	Type of adhesive	acrylic			

#### **Properties/Performance Values**

•	Tensile strength	17.5 N/cm	•	Sharp color edge	yes
•	Conformability	very good	•	Temperature resistance	low
•	Easy to remove	yes	•	Thickness of masking coverage	20 μm
•	Material of masking coverage	HDPE			

# Adhesion to Values

• Steel 2.5 N/cm

# tesa® 4216 RollMasker LT
