

# tesa® 50550 Glassguard

## Product Information

Temporary protection film for sensitive surfaces such as automotive glass

tesa® 50550 Glassguard is a highly transparent clear tape designed to protect sensitive surfaces, especially glass, against scratches, holes, and dirt. The tape is easy to unwind and good to apply – even on curved 3-D surfaces. It has a good tack and final adhesion to flat surfaces.

Main features:

- Highly transparent, nearly invisible surface protection
- Very good protection properties against scratches, dirt etc.
- Traceless removal
- Sharp view through the film material, no restrictions due to reduced vision
- Easy, precise, and fast mounting
- Good conformability and easily applied to 3-D surfaces
- No blow off, e.g. from windshields, at a speed of 160 km/h
- Outdoor/UV resistance for 6 months

## Main Application

tesa® 50550 Glassguard is suitable for protection against dirt and scratches during assembly, transport, and storage, e.g. of windshields.

Example applications are:

- Windshields
- Glass areas

## Technical Information (average values)

The values in this section should be considered representative or typical only and should not be used for specification purposes.

### Technical Data

• Backing material	PP film	• Elongation at break	650 %
• Color	transparent	• Tensile strength	17.5 N/cm
• Total thickness	72 µm	• UV-resistance	36 weeks
• Type of adhesive	EVA		

### Adhesion to

- steel 0.1 N/cm

### Properties

• Easy to remove	Yes	• Paint compatibility	●●●
• Suitable for die cutting	Yes	• Resistance to chemicals	●●●●●

Evaluation across relevant tesa® assortment: ●●●● very good ●●● good ●● medium ● low
