At a Glance – tesa SE

As one of the leading international manufacturers of self-adhesive products and system solutions and an independent public limited company in Europe, we are represented in over 100 countries and are the global market leader in numerous fields of application. From the classic tesa® a brand family has developed with more than 7,000 innovative and customer-oriented products – for the industrial and commercial segments, and end consumers.

Consumer Business

Around **300**

products for the office, home, and garden:

affixing, mounting, packaging, renovating, repairing, insulating, and protection from insects, dust, and drafts.

History

1936

The tesa® – adhesive tape launched – later known as tesa®film®

2001

tesa AG founded

2012

tesa® ACXplus launched

1890

First technical adhesive tape launched

1941

The name tesa® is used as an umbrella brand for all self-adhesive products marketed by the group of companies for the first time

2009

Corporate form changed to the SE (Societas Europaea) form

2016

New tesa® headquarters inaugurated

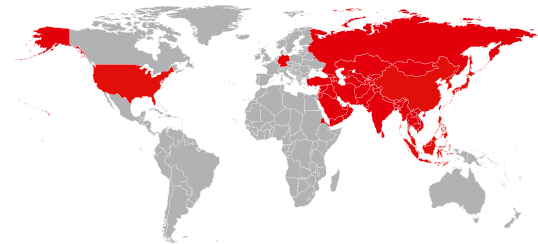

Research & Development

The tesa brand goes back more than 75 years old and is rooted in a wealth of experience in the development, manufacturing and marketing of self-adhesive tapes. Thanks to continuous research work, we now occupy a world-leading technological position in many fields.

More than

100
years of experience
in coating technology and development of adhesive masses

With research sites
in Germany, the United States and Asia

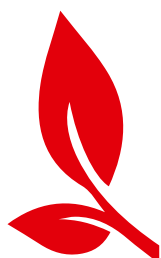

220
employees in Research & Development

More than

52% 
innovation rate

Corporate Responsibility

Quality and belief in sustainability

The interaction of optimal product benefits, highest quality and reliability is an intrinsic element of the tesa philosophy. Environmental protection and ethical behaviour are equally essential corporate objectives and an active continuation of our tradition. Our product portfolio embraces various products with which consumers can make their own contribution to environmental protection.

tesa® HAS DEVELOPED A PROGRAMME TO SUPERVISE PRODUCTION, SUPPLY CHAIN AND PRODUCTS TO PURSUE THE COMPANY'S ENVIRONMENTAL TARGETS.

- 1 Eco-sourced raw materials
- 2 Resource-friendly production
- 3 Non-toxic ingredients
- 4 Re-fill/Re-use of products

SUSTAINABLE SUCCESS WITH tesa ecoLogo® PRODUCTS

The tesa ecoLogo® makes it easier for customers to choose from our range when looking for environmentally friendly products. For better guidance, our environment icons explain the ecological advantages of each product and percentages provide information on the quantity of environmentally friendly materials used:

tesa ecoLogo® products are mainly based on recycled or bio-based raw materials. Thus tesa aims to minimize the usage of limited resources like crude oil. tesa ecoLogo® products are free of solvents and hazardous substances. Moreover, the packaging is made from bio-based and/or recycled material. With tesa ecoLogo® products, the consumer can be sure of buying an environment-friendly product.

Carbon dioxide is one of the “greenhouse gases” which can cause global warming. “The Product Carbon Footprint” is a well-known method within a life cycle assessment which is used to evaluate the environmental aspects of a product or service system through all stages of its life cycle. The tesa Sticks ecoLogo® assortment show a decrease of carbon footprint of 25–32% due to 100% recycled housing compared to the non-recycled version.

Sustainable materials are used to the largest extent possible for many tesa ecoLogo® products, like wood, natural fibre and water.

As the first manufacturer of adhesive tapes, tesa was the first manufacturer of adhesive tapes to be awarded the DIN CERTCO certification seal “DIN-certified recycled content”. The recycled content of the product groups tesafilm® eco & clear and tesapack® eco & strong has been approved. DIN CERTCO is an independent certification organization which belongs to the TÜV Rheinland (German technical control board).

Adhesive tape foils as well as the plastic parts of tesa ecoLogo products are made of recycled plastic.

The adhesive used as the tesa ecoLogo® products themselves are also solvent-free.

We take care to use recycled materials – for the core as well as for the packaging.

The refillable tesa ecoLogo® products help to conserve resources because they can be used again and again.

ECOLOGICALLY CONSISTENT AND SUCCESSFUL – WITH THE tesa ecoLogo® BRAND

GOOD FOR THE ENVIRONMENT:

- Predominantly recycled or biologically-based raw materials
- Solvent-free adhesive composition
- Recycled or renewable packaging materials to the greatest extent possible
- Compliance with DIN EN ISO 14021 for ecological product standards

GOOD RESULTS:

- Customary high tesa® quality

Welcome to the new tesa Consumer Catalogue!

Enjoy the international tesa Consumer range in a new tesa brand design.

Take a look at our new product ranges such as the Smart Mounting solutions, the new tesa Sanitary hooks, a wider tesa TACK assortment and lots of other new tesa products.

You can also find out everything about tesa and tesa products online at www.tesa.com

On our new website you will learn all about the tesa brand and find all relevant product information and tools to support your decision-making.

The www.tesa.com is also in our new brand design and conveys structured information, not only about our product range, but also offers tips and tricks to inspire, help and support, a dedicated DIY magazine to share deeper insights and a lot more stories to discover.

The new approach takes into account the increasing numbers of mobile users with a responsive design and streamlined access to the relevant information via low hierarchies and a fast, convenient product search.

All in all, a modern form of online communication from tesa.

Dive deep into the world of tesa online. The new www.tesa.com

tesa® products are tried and proven quality products which are constantly subjected to strict controls. You will achieve optimum results if you work on dry, dust-free and grease-free surfaces and by firmly pressing on the tape. To find out if the tape is suitable for your specific application, we strongly recommend that you first test it on small surfaces. Since we have no influence on your individual working conditions or the properties of all different kinds of material, no claim may arise from the statements made in this product information.

tesa Easy Cover® PREMIUM Foil XL/Foil L/ Foil M/ ecoLogo® PREMIUM Paper S

- Protects against paint splashes
- Enables sharp and clean paint edges, even on slight curves
- With practical dispenser and integrated cutter
- Easily cut to size

- Easy Cover® foil:
 - adapts ideally to protecting area
 - foil structure slows paint drips down

- Easy Cover® paper:
 - smooth paper prevents paint penetration and protects against paint splashes and spots

tesa® products are tried and proven quality products which are constantly subjected to strict controls. You will achieve optimum results if you work on dry, dust-free and grease-free surfaces and by firmly pressing the tape into place.. To find out if the tape is suitable for your specific application, we strongly recommend that you first test it on small surfaces. Since we have no influence on your individual working conditions or the properties of all different kinds of material, no claim may arise from the statements made in this product information.

tesa® PROTECT & ANTI-SLIP

Say goodbye to the noise of scraping furniture and banging cupboard doors with tesa® Protect: Anti-Scratch Felts, Carpet Gliders, Anti-Noise/Anti-Slip Pads and Protection Buffers. Furniture and other objects glide gently across sensitive surfaces, while drawers and doors close silently.

tesa Powerbond® MOUNTING TAPES

The tesa® range of double-sided mounting tapes has been designed with individual features for specific applications. Without noise, dust or risk of accidents, objects can be fixed to walls in just a few simple steps. Common to all five tapes is easy handling, strong hold and a wide variety of uses. An aid in many situations that really no household should be without.

** For flat objects up to 10 mm thick and on most smooth, sufficiently firm surfaces

tesa® products are tried and proven quality products which are constantly subjected to strict controls. You will achieve optimum results if you work on dry, dust-free and grease-free surfaces and by firmly pressing on the tape. To find out if the tape is suitable for your specific application, we strongly recommend that you first test it on small surfaces. Since we have no influence on your individual working conditions or the properties of different kinds of material, no claim may arise from the statements made in this product information.

tesa POWERSTRIPS®

tesa Powerstrips® offer double-sided adhesive solutions with a secure hold on most surfaces* which, due to the Powerstrips® technology, are simple and quick to remove without a trace. Objects can be fixed in position easily and safely without tools, screws or nails, and moved or replaced easily too: pulling the tab parallel to the surface stretches the strip to release the adhesive bond. The strip detaches without leaving residues or damaging surfaces.

- tesa Powerstrips® LARGE / SMALL / POSTER
- tesa Powerstrips® TRANSPARENT LARGE / DECO / Deco Hooks
- tesa Powerstrips® Hooks / Hook Racks
- tesa Powerstrips® Fixation Systems

tesa Powerstrips® LARGE / SMALL

- Secure hold for objects on most surfaces*
- Removable without trace thanks to the Powerstrips® technology
- Maximum hold on smooth surfaces of up to
 - 2 kg - Powerstrips® LARGE
 - 1 kg - Powerstrips® SMALL
- Suitable as refill for the whole Powerstrips® LARGE or SMALL range

Code
58000 | 57550

Available colours:

tesa Powerstrips® POSTER

- Secure hold of up to 200 g*
- Removable without trace thanks to the Powerstrips® technology
- Ideal for light, sensitive materials and sensitive surfaces due to special strip shape
- Posters can be replaced or rearranged, leaving both surface and poster undamaged

Code

GHS 09

tesa® products are tried and proven quality products which are constantly subjected to strict controls. You will achieve optimum results if you work on dry, dust-free and grease-free surfaces and by firmly pressing the materials to be glued. To find out if the adhesive is suitable for your specific application, we recommend that you first test it on small surfaces. Since we have no influence on your individual working conditions or the properties of all different kinds of material, no claim may arise from the statements made in this product information.

tesa® DOUBLE-SIDED AND HANDICRAFT TAPES

In the office or at home – if you need double-sided tapes, tesa® has the right solutions.

- tesa® Double-sided Fleece
- tesa® Double-sided Tape
- tesa® Graphics Crêpe
- tesa® Handicraft Tape

tesa® Double-sided Fleece

- Double-sided adhesion
- Release paper allows tape to be pressed firmly into place
- Transparent
- Good adhesion
- Easy to separate by hand
- Extra-thin
- Tin container for protected storage
- High resistance to ageing

Code

tesa® ROLLER

tesa correction and adhesive rollers offer clean, crisp results for paperwork! tesa rollers have been ergonomically designed so that precise and fast gluing and correcting becomes child's play. The different rollers and their applications can be told apart by their contrasting colours. All rollers are available in two versions: in handy disposable form or refillable with practical 2-click system. All rollers are made of 100 % recycled plastic (housing) and therefore contribute substantially to tesa's commitment to the environment.

- tesa Correction Roller ecoLogo® & Glue Roller ecoLogo® - refill system
- tesa Correction Roller ecoLogo® & Glue Roller ecoLogo® - disposable
- tesa Mini Correction Roller ecoLogo® & Mini Glue Roller ecoLogo®
- tesa Glue Stamp ecoLogo®

tesa® Correction Roller ecoLogo® refill system

- For precise corrections
- Good cover and adhesion
- Can be written on immediately
- Tear-resistant backing (PET)
- Tape widths: 4.2 mm for printed text, 8.4 mm for hand-written text
- Packaging: 80 % recycled cardboard, blister without PVC

Code
59971 | 59981 | 59840 | 59880

Code
59976 | 59986 | 59841 | 59881

tesa® Roller refill system

- One housing for three different applications
- Two clicks are all that's needed to switch cassettes
- Colour of cassette indicates application:
white = correction
red = permanent adhesion
yellow = non-permanent adhesion

- Ergonomically designed for ease of use
- Transparent housing shows amount of tape remaining
- Practical wheel for tape tension adjustment
- Wide base for stable use

tesa® TACK ASSORTMENT

The tesa® TACK range makes it possible to fix light-weight objects safely and allows postcards, drawings or photos to be hung up quickly and easily without magnets or nails. tesa® TACK is easy to use and offers different, flexible solutions for many fixation problems.

- tesa® TACK Transparent Double-sided Adhesive Pads
- tesa® TACK Transparent Double-sided Adhesive Pads XL
- tesa® TACK Adhesive Putty
- tesa® TACK Coloured Adhesive Pads

tesa® TACK Transparent Double-sided Adhesive Pads / XL

tesa® TACK transparent double-sided adhesive pads were developed for transparent fixing of small and lightweight objects such as pictures, postcards, notes, drawings & organigrams or in the case of tesa® TACK XL larger sheets of paper, office calendars, flipcharts etc.

- Transparent and thin
- Reusable and repositionable
- No greasy stains
- Intelligent alternative to magnets and drawing pins
- Removable without a trace from sufficiently firm surfaces
- Ideal for non-porous surfaces such as glass or metal, even wood & painted surfaces

Code
59408 | 59401 | 59404

Available colours:

tesa® TACK Adhesive Putty

tesa® TACK Adhesive Putty was developed for flexible fixing of medium to larger sized objects such as larger papers & office calendars. It also holds many ordinary household objects in place and complements tesa's range of temporary fixing solutions.

- Flexible in application: dividable & ideal apportionable
- Reusable and repositionable, ideal for non-porous surfaces such as glass or metal, even wood & painted surfaces
- Removable without a trace from sufficiently firm surfaces

Code
59405

Available colours:

tesa® TACK Coloured Adhesive Pads

tesa® TACK Coloured Adhesive Pads were developed for decorative fixing of lightweight objects such as pictures, postcards, drawings and notes. They complement tesa's range of temporary fixing solutions.

- Flexible in application: one- and double-sided usable
- No greasy stains
- Intelligent alternative to magnets and drawing pins
- Removable without a trace from sufficiently firm surfaces
- Ideal for non-porous surfaces such as glass or metal, even wood & painted surfaces
