tesa Powerbond® MOUNTING TAPES

The tesa range of double-sided mounting tapes has been designed with individual features for specific applications. Without noise, dust or risk of accidents objects can be fixed to walls in just a few simple steps. Common to all tapes is easy handling, strong hold and a wide variety of uses. An aid in many situations that really no household should do without.

tesa® products are tried and proven quality products which are constantly subjected to strict controls. You will achieve optimum results if you work on dry, dust-free and grease-free surfaces and by firmly pressing on the tape. To find out if the tape is suitable for your specific application, we strongly recommend that you first test it on small surfaces. Since we have no influence on your individual working conditions or the properties of all different kinds of material, no claim may arise from the statements made in this product information.

tesa Powerbond® MIRROR

- Ideal for mirrors*
- Humidity-resistant
- Holds mirrors of max. 70 x 70 cm up to 4 mm thickness
- Suitable for damp areas like bathrooms

* For flat objects up to 4 mm thick and on most smooth, sufficiently firm surfaces

55732

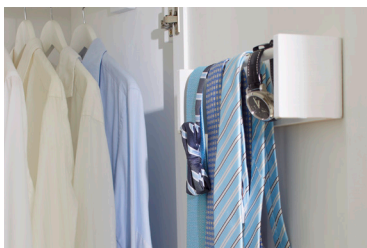

55733

tesa Powerbond® INDOOR

- Ideal for interior use
- Extra-strong hold
- Holds up to 5 kg** per 10 cm tape
- Usable on tiles, plaster, wood and most plastics

** For flat objects up to 10 mm thick and on most smooth, sufficiently firm surfaces

tesa POWERSTRIPS®

tesa Powerstrips® offer double-sided adhesive solutions with a secure hold on most surfaces* which, due to the Powerstrips® technology, are simple and quick to remove without a trace. Objects can be fixed in position easily and safely without tools, screws or nails, and moved or replaced easily too: pulling the tab parallel to the surface stretches the strip to release the adhesive bond. The strip detaches without leaving residues or damaging surfaces.

tesa Powerstrips® LARGE / SMALL

- Secure hold for objects on most surfaces*
- Removable without trace thanks to the Powerstrips® technology
- Maximum hold on smooth surfaces of up to
 - 2 kg - Powerstrips® LARGE
 - 1 kg - Powerstrips® SMALL
- Suitable as refill for the whole Powerstrips® LARGE or SMALL range

58000

57550

* Not suitable for use on styrofoam, foamed material, surfaces with non-stick coating, porous materials.

tesa Powerstrips® POSTER

- Secure hold of up to 200 g*
- Removable without trace thanks to the Powerstrips® technology
- Ideal for light, sensitive materials and sensitive surfaces due to special strip shape
- Posters can be replaced or rearranged, leaving both surface and poster undamaged

58003

* Not suitable for use on styrofoam, foamed material, surfaces with non-stick coating, porous materials.

tesa® TACK ADHESIVE PADS

The tesa® TACK range makes it possible to fix light-weight objects safely and allows postcards, drawings or photos to be hung up quickly and easily without magnets or nails. tesa® TACK is easy to use and offers different, flexible solutions for many fixation problems.

tesa® TACK Transparent Double-sided Adhesive Pads / XL

tesa® TACK transparent double-sided adhesive pads were developed for transparent fixing of small and lightweight objects such as pictures, postcards, notes, drawings and organigrams or in the case of tesa TACK XL larger sheets of paper, office calendars, flipcharts etc.

- Transparent and thin
- Reusable and repositionable
- No greasy stains
- Intelligent alternative to magnets and drawing pins
- Removable without a trace from sufficiently firm surfaces
- Ideal for non-porous surfaces such as glass or metal, even wood and painted surfaces

Available colours:

59408

59404

59401

tesa® TACK Adhesive Putty Basic

tesa® TACK Adhesive Putty Basic was developed for flexible fixing of medium to larger sized objects such as larger papers and office calendars. It also holds many ordinary household objects in place and complements tesa's range of temporary fixing solutions.

- Flexible in application, apportionable
- Reusable and repositionable, ideal for non-porous surfaces such as glass or metal, even wood and painted surfaces
- Removable without a trace from sufficiently firm surfaces

Consumer Business

As one of the leading international manufacturers of self-adhesive products and system solutions and an independent public limited company in Europe, we are represented in over 100 countries and are the global market leader in numerous fields of application. From the classic tesa[®] a brand family has developed with more than 7,000 innovative and customer-oriented products – for the industrial and commercial segments, and end consumers.

Around **300**

products for the office, home, and garden: affixing, mounting, packaging, renovating, repairing, insulating, and protection from insects, dust, and drafts.

History

The tesa[®] – adhesive tape launched – later known as tesafilm[®]

1936

1890 First technical adhesive tape launched

1941 The name tesa[®] is used as an umbrella brand for all self-adhesive products marketed by the group of companies for the first time

tesa AG founded **2001**

2009 Corporate form changed to the SE (Societas Europaea) form

tesa[®] ACXplus launched **2012**

2016 New tesa[®] headquarters inaugurated

Research & Development

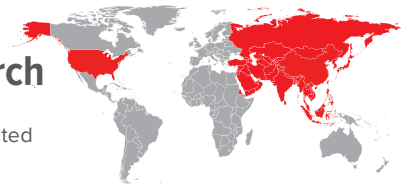

The tesa brand goes back more than 75 years old and is rooted in a wealth of experience in the development, manufacturing and marketing of self-adhesive tapes. Thanks to continuous research work, we now occupy a world-leading technological position in many fields.

More than

100 years of experience
in coating technology and
development of adhesive masses

With research sites

in Germany, the United States and Asia

220 employees in
Research &
Development

More than

52%
