

tesa® 4288 EU PV10

Product Information

tesa® 4288EU Standard Strapping Tape

Product Description

tesa® 4288 is a conventional strapping tape with tensilized polypropylene backing. The rubber adhesive system provides high initial tack to both polar and non-polar surfaces. The mono-oriented polypropylene backing exhibits high conformability, good tensile strength, and low elongation. This allows high performance in medium-duty bundling, palletizing, and coil tabbing applications. With effortless dispensing, our tape accommodates both manual and automatic operations, making it the go-to choice for streamlined packaging processes.

Product Features

- solvent-free adhesive
- low elongation
- good workability

Application Fields

- Medium duty bundling of pipes (i.e., copper, iron and plastic)
- Temporary fixation
- Medium-duty palletizing & reinforcing
- "L/C" clipping
- High conformability to different shapes

Technical Information (average values)

The values in this section should be considered representative or typical only and should not be used for specification purposes.

Product Construction

- | | | | |
|--------------------|------------------|-------------------|--------|
| • Backing | MOPP | • Total thickness | 110 µm |
| • Type of adhesive | synthetic rubber | • Color | black |

Product Assortment

- | | |
|--------------------|-------|
| • Available colors | black |
|--------------------|-------|

Properties/Performance Values

- | | | | |
|-----------------------|----------|-----------------------------|-----|
| • Elongation at break | 35 % | • No discoloration | yes |
| • Tensile strength | 300 N/cm | • Residue-free removability | yes |

Adhesion to Values

- | | |
|---------|--------|
| • Steel | 7 N/cm |
