

tesa® 4204 PV5

Transparent packaging tape

The properties of the adhesive enable a good tack on all kind of surfaces and secure a good sealing.

The ageing stability allows long storage times for the sealed boxes, as well as superior outdoor behaviour. tesa® 4204 PV5 can be used on all common desk dispensers.

Compared to most other PP waterbased acrylic tapes tesa® 4204 PV 5 has an improved adhesive anchorage, which reduces the risk of adhesive residues after removal.

As the product is chlorine free and based on derivatives of mineral oil only, the disposal by heat treatment is environmental friendly.

The process of cardboard waste recycling will be not disrupted as confirmed by leading recycling companies and paper mills.

Main Application

tesa® 4204 PV5 is recommended as a sealing tape for small boxes, bags, tins and drums or for fixing sheets of plastic.

Technical Data

▪ Backing material	PP film	▪ Adhesion to steel	3.2 N/cm
▪ Total thickness	52 µm	▪ Elongation at break	150 %
▪ Type of adhesive	acrylic	▪ Tensile strength	50 N/cm
