

tesa® 51300

Heat-resistant universal bandoliering tape

This tape consists of a crêped paper with a heat-resistant thermosetting adhesive.

For short term exposure, the maximum applicable temperature is 180 °C.

Main Application

The product is therefore particularly suitable for bandoliering of components which, as part of the production process, have to pass through a drying zone after lacquering, or are exposed to artificial ageing by heat.

Due to the age-resistant adhesive, tesa® 51300 is especially suitable for stock-belting.

Technical Data

▪ Backing material	slightly-creped paper	▪ Elongation at break	12 %
▪ Total thickness	165 µm	▪ Tensile strength	42 N/cm
▪ Type of adhesive	natural rubber	▪ Temperature resistance	140 °C
▪ Adhesion to steel	4.1 N/cm		

Additional Information

Colours: chamois, blue
