- For gjenstander opptil 2 kg\* per spiker eller 4 kg ved hjelp av 2 spikrer
- Kan fjernes uten å etterlate merker
- Gjenbrukbar med en ny strimmel
- For optimale resultater kan du lese instruksjonsheftet

### Applikasjon

How to apply – Step by step1. Ensure the best possible bond by cleaning the surface of dirt and dust with a dust-free cloth.

2. First, apply the Adhesive Strip to the rougher surface, so in the case of wallpaper or plaster always first apply it to the wall, with the blue tab facing the wall. Before using, make sure that your surface is strong enough to take the weight of the object you want to attach.

3. Press down evenly over the entire strip for at least 5 seconds and only then remove the protective foil. By pressing down like this the flexible polymer chains are activated and form U-shaped links with the surface. It's these links that give such a secure and reliable bond, so the harder and more evenly you press, the better the bond.

4. Now apply the tesa® Adhesive Nail by aligning it on the top edge of the strip, then folding it down. Press down evenly all over the entire nail for at least 5 seconds.

5. The tab should be left accessible behind your object or beneath the nail for easy removal.
